

As construction continues on the I-10 Express Lanes project, work in the City of Montclair will generally occur Monday through Friday during daytime (6:00 a.m. to 4:00 p.m.) and nighttime (9:00 p.m. to 5:00 a.m.) hours, except as noted below. Please remember, all construction is dynamic and the schedule is subject to change.

For the most up-to-date closures and detours, please visit the project's [Google Map by clicking HERE](#).

Bridge Demolition and Construction:

Eighteen bridges throughout the corridor will either be replaced, widened, or improved to accommodate the widening of the freeway. During times of demolition, shoring, and backfilling work will be loud and vibration will occur. You will see bright lights and hear equipment including excavators, backhoes, loaders, and dump trucks. Upcoming bridge activities in Montclair include:

- **Monte Vista Avenue:** Crews continue to relocate underground utilities and are preparing to build a new wider section of the eastbound (EB) side of the freeway. In late November 2020, utility companies began boring (drilling) and trenching under Monte Vista Avenue from north of the westbound (WB) on-ramp to approximately Princeton Street. This work will occur during nighttime hours and will be loud at times. This activity is expected to continue for approximately three months.
- **Central Avenue:** In November 2020, a portion of the EB I-10 shoulder over Central Avenue was removed to prepare the existing bridge to be widened. Work will occur during daytime and nighttime hours.
- **Benson Avenue:** A portion of the EB I-10 shoulder over Benson Avenue was removed in early-December 2020. Benson Avenue between 5th Street and Moreno Street will have reduced lanes with flaggers directing traffic during daytime hours through February 19. Crews will be shoring (building temporary support structures), sawing, and removing pavement. Bridge widening work will continue for approximately two years.

Retaining and Sound Wall Work:

Crews will continue to demolish retaining walls and sound walls at several locations near the EB lanes of I-10 between Monte Vista Avenue and Benson Avenue. This work will be loud and vibration will occur. Equipment used includes excavators, backhoes, loaders, and dump trucks.

Retaining walls and sound walls are located on State property next to the freeway. K-rail is placed on the freeway shoulders and crews work between the k-rail and wall locations. Once walls are demolished, materials are removed so crews can prepare the land for the replacement wall

Daytime Retaining and Sound Wall Activity: Work will occur Monday through Friday between 6:30 a.m. and 4:00 p.m. Streets adjacent to this work include:

- Helena Avenue
- Bolton Avenue
- Tudor Avenue
- Surrey Avenue
- Yale Street
- Columbia Avenue
- Palo Verde Street

ABOUT THE PROJECT: Phase 1 of SB Express Lanes is located in the southwestern portion of San Bernardino County east of Los Angeles County between the Los Angeles/San Bernardino County line and I-15. The project includes two express lanes in each direction to offer trip reliability and ease congestion. In addition, lanes to assist drivers getting on and off the freeway (auxiliary lanes) will be constructed in selected locations. West of Haven Avenue, a single new lane will be constructed and combined with the existing HOV lane to provide two express lanes in each direction. The HOV lane will still be available to motorists, but will increase from 2+ to 3+. East of Haven Avenue, two express lanes will be constructed.

LANES

Montclair

Local Street Closures:

Crews are removing sound walls and retaining walls, relocating utilities, and removing trees on several local streets adjacent to the I-10; at times this work may be loud and you may feel vibration. One side of the sidewalk will always remain open.

- Daytime and/or nighttime lane closures, streets will remain open:
 - Monte Vista Avenue and Benson Avenue
- Nighttime street closures, detour routes will be posted:
 - Monte Vista Avenue: Northbound (NB)/southbound (SB) street closed under I-10
 - Palo Verde Street: WB street closed from Central Avenue to Monte Vista Avenue

Ramp Closures:

Intermittent nighttime WB and EB on- and off-ramp closures, detour routes will be posted:

- Monte Vista Avenue
- Central Avenue
