

As construction continues on the I-10 Express Lanes project, work in the City of Montclair will generally occur Monday through Friday during daytime (6:00 a.m. to 4:00 p.m.) and nighttime (9:00 p.m. to 5:00 a.m.) hours, except as noted below. Please remember, all construction is dynamic and the schedule is subject to change.

For the most up-to-date closures and detours, please visit the project's [Google Map by clicking HERE](#).

Bridge Demolition and Construction:

Eighteen bridges throughout the corridor will either be replaced, widened, or improved to accommodate the widening of the freeway. During times of demolition, shoring, and backfilling work will be loud and vibration will occur. You will see bright lights and hear equipment including excavators, backhoes, loaders, and dump trucks. Upcoming bridge activities in Montclair include:

- **Monte Vista Avenue:** Crews continue to relocate underground utilities at Monte Vista Avenue and are preparing to build a new wider section of the eastbound (EB) side of the freeway. Work on Monte Vista Avenue began in spring 2020 and will last for approximately three years. Daytime and nighttime activities include earthwork and removing a portion of the bridge support walls and temporary bridge walls.
- **Central Avenue:** In November 2020, a portion of the EB I-10 shoulder over Central Avenue was removed to prepare the existing bridge to be widened. Work will occur during daytime and nighttime hours. Work began in fall 2020 and will last for approximately 18 months.
- **Benson Avenue:** A portion of the EB I-10 shoulder over Benson Avenue was removed in early-December 2020. Bridge widening work will continue for approximately two years. Crews will be excavating, placing rebar, and pouring concrete during daytime and nighttime hours.

Retaining and Sound Wall Work:

Crews will continue to demolish retaining walls and sound walls at several locations near the EB lanes of I-10 between Monte Vista Avenue and Benson Avenue. This work will be loud and vibration will occur. Equipment used includes excavators, backhoes, loaders, and dump trucks.

Retaining walls and sound walls are located on State property next to the freeway. K-rail is placed on the freeway shoulders and crews work between the k-rail and wall locations. Once walls are demolished, materials are removed so crews can prepare the land for the replacement wall

Daytime Retaining and Sound Wall Activity: Work will occur Monday through Friday between 6:30 a.m. and 4:00 p.m. Streets adjacent to this work include:

- | | | |
|-----------------|---------------------|-------------------|
| • Helena Avenue | • Palo Verde Street | • Bel Air Avenue |
| • Bolton Avenue | • Columbia Avenue | • Caroline Street |
| • Tudor Avenue | • San Jose Street | • Del Mar Avenue |
| • Surrey Avenue | • Deodar Street | |
| • Yale Street | • Vernon Avenue | |

ABOUT THE PROJECT: Phase 1 of SB Express Lanes is located in the southwestern portion of San Bernardino County east of Los Angeles County between the Los Angeles/San Bernardino County line and I-15. The project includes two express lanes in each direction to offer trip reliability and ease congestion. In addition, lanes to assist drivers getting on and off the freeway (auxiliary lanes) will be constructed in selected locations. West of Haven Avenue, a single new lane will be constructed and combined with the existing HOV lane to provide two express lanes in each direction. The HOV lane will still be available to motorists, but will increase from 2+ to 3+. East of Haven Avenue, two express lanes will be constructed.

LANES

Montclair

Local Street Closures:

Crews are removing sound walls and retaining walls, relocating utilities, and removing trees on several local streets adjacent to the I-10; at times this work may be loud and you may feel vibration. One side of the sidewalk will always remain open.

- Daytime and/or nighttime lane closures, streets will remain open:
 - Monte Vista Avenue and Benson Avenue
- Nighttime street closures, detour routes will be posted:
 - Monte Vista Avenue: Northbound (NB)/southbound (SB) street closed under I-10
 - Palo Verde Street: Westbound (WB) street closed from Central Avenue to Monte Vista Avenue

Ramp Closures:

Intermittent nighttime WB and EB on- and off-ramp closures, detour routes will be posted:

- Monte Vista Avenue
- Central Avenue
