

As construction continues on the I-10 Express Lanes project, work in the City of Montclair will generally occur Monday through Friday during daytime (6:00 a.m. to 4:00 p.m.) and nighttime (9:00 p.m. to 5:00 a.m.) hours, except as noted below. Please remember, all construction is dynamic and the schedule is weather-permitting and subject to change.

For the most up-to-date closures and detours, please visit the project's [Google Map by clicking HERE](#).

Bridge Demolition and Construction:

Eighteen bridges throughout the corridor will either be replaced, widened, or improved to accommodate the widening of the freeway. During times of demolition, shoring, and backfilling work will be loud and vibration will occur. You will see bright lights and hear equipment including excavators, backhoes, loaders, and dump trucks. Upcoming bridge activity in Montclair includes:

- **Monte Vista Avenue:** Crews continue to relocate underground utilities and are preparing to build a new wider section of the eastbound (EB) side of the freeway. In late November 2020, utility companies began boring (drilling) and trenching under Monte Vista Avenue from north of the westbound (WB) on-ramp to approximately Princeton Street. This work will occur during nighttime hours and will be loud at times. This activity is expected to continue for approximately three months.
- **Central Avenue:** In November 2020, a portion of the EB I-10 shoulder over Central Avenue was removed to prepare the existing bridge to be widened. Work will occur during daytime and nighttime hours.
- **Benson Avenue:** A portion of the EB I-10 shoulder over Benson Avenue was removed in December 2020. Crews will install shoring (temporary support structures) next to the bridge. This work may be loud at times. Work will occur during daytime and nighttime hours.

Retaining and Sound Wall Work:

Crews will continue to demolish retaining walls and sound walls at several locations near the EB lanes of I-10 between Monte Vista Avenue and Benson Avenue. This work will be loud and vibration will occur. Equipment used includes excavators, backhoes, loaders, and dump trucks.

Retaining walls and sound walls are located on State property next to the freeway. K-rail is placed on the freeway shoulders and crews are working between the k-rail and wall locations. Once walls are demolished, materials are removed so crews can prepare the land for the replacement wall.

Daytime Retaining and Sound Wall Activity: Work will occur Monday through Friday between 6:30 a.m. and 4:00 p.m. Streets adjacent to this work include:

- | | | |
|-------------------|-------------------|--------------------|
| • Columbia Avenue | • Vernon Avenue | • Del Mar Avenue |
| • San Jose Street | • Bel Air Avenue | • N. Jasmine Court |
| • Deodar Street | • Caroline Street | • N. Iris Court |

ABOUT THE PROJECT: Phase 1 of SB Express Lanes is located in the southwestern portion of San Bernardino County east of Los Angeles County between the Los Angeles/San Bernardino County line and I-15. The project includes two express lanes in each direction to offer trip reliability and ease congestion. In addition, lanes to assist drivers getting on and off the freeway (auxiliary lanes) will be constructed in selected locations. West of Haven Avenue, a single new lane will be constructed and combined with the existing HOV lane to provide two express lanes in each direction. The HOV lane will still be available to motorists, but will increase from 2+ to 3+. East of Haven Avenue, two express lanes will be constructed.

EXPRESS
LANES

Montclair

- N. Helen Court
- N. Oaks Court
- N. Gardenia Court
- N. Fuchsia Avenue
- N. Elderberry Court
- N. Dahlia Court

Local Street Closures:

- **Monte Vista Avenue:** daytime and nighttime lane closures between Princeton Street and San Jose Street; northbound (NB) and southbound (SB) lanes on Monte Vista Avenue closed nightly under I-10; detour routes will be posted
- **Palo Verde Street:** nighttime WB street closed between Central Avenue and Monte Vista Avenue; detour routes will be posted
- **Benson Avenue:** daytime lane closures between 6th Street and San Jose Street/7th Street; nighttime NB/SB street under I-10 closed; detour routes will be posted

Ramp Closures:

January 11 to January 14: The following ramps will be closed nightly (9:00 p.m. to 5:00 a.m.) so crews can reconfigure and stripe lanes (detour routes will be posted):

- WB Monte Vista Avenue on-ramp
- EB Central Avenue on- and off-ramps

Intermittent nighttime WB and EB on- and off-ramp closures, detour routes will be posted:

- Monte Vista Avenue
- Central Avenue
