

As construction continues on the I-10 Express Lanes project, work in the City of Ontario will generally occur Monday through Friday during daytime (6:00 a.m. to 4:00 p.m.) and nighttime (9:00 p.m. to 5:00 a.m.) hours, except as noted below. Please remember, all construction is dynamic and the schedule is weather-permitting and subject to change.

For the most up-to-date closures and detours, please visit the project's [Google Map by clicking HERE](#).

Bridge Demolition and Construction

Eighteen bridges throughout the corridor will either be replaced, widened, or improved to accommodate the widening of the freeway. During times of demolition, shoring, and backfilling work will be loud and vibration will occur. You will see bright lights and hear equipment including excavators, backhoes, loaders, and dump trucks. Upcoming bridge activities in Ontario include:

- **Vineyard Avenue:** Crews continue to prepare the bridge for partial demolition. This work may be loud at times. There will be upcoming lane and ramp closures the weekend of February 19 and the bridge demolition is tentatively scheduled for March 5 and 6. More information will be provided.
- **4th Street:** Crews continue to relocate underground utilities at 4th Street and are preparing to build a new wider section of the eastbound (EB) side of the freeway. 4th Street between El Dorado Avenue and Vineyard Avenue is reduced to one lane and there may be delays during morning and evening hours. Work on 4th Street began in spring 2020 and will last for approximately two years.
- **Grove Avenue:** A portion of the EB and westbound (WB) I-10 shoulder over Grove Avenue was removed in December 2020. Crews will continue to prepare the existing bridge for widening. Daytime and nighttime activities include shoring (building temporary support structures) and sawing and removing pavement. Work is expected to be complete in approximately nine months.
- **Sultana Avenue:** Crews continue to build the new Sultana Avenue bridge supports and deck. Work will occur during daytime and nighttime hours.
- **Euclid Avenue:** Crews continue to rebuild the new wider portion of the eastside of the Euclid Avenue bridge and will install large concrete precast beams (girders). Work may occur during daytime and nighttime hours.
- **Benson Avenue:** A portion of the EB I-10 shoulder over Benson Avenue was removed in December 2020. As crews continue to work on widening the I-10 over Benson Avenue, there will be daytime lane closures on Benson Avenue between 5th Street and Moreno Street. For approximately two weeks, crews will install shoring to support bridge construction. Flaggers will be on site directing traffic.
- **Mountain Avenue:** In November 2020, crews removed a portion of the EB I-10 shoulder over Mountain Avenue. Daytime and nighttime activities include pouring concrete and placing rebar. Work began in fall 2020 and will last for approximately 18 months.

ABOUT THE PROJECT: Phase 1 of SB Express Lanes is located in the southwestern portion of San Bernardino County east of Los Angeles County between the Los Angeles/San Bernardino County line and I-15. The project includes two express lanes in each direction to offer trip reliability and ease congestion. In addition, lanes to assist drivers getting on and off the freeway (auxiliary lanes) will be constructed in selected locations. West of Haven Avenue, a single new lane will be constructed and combined with the existing HOV lane to provide two express lanes in each direction. The HOV lane will still be available to motorists, but will increase from 2+ to 3+. East of Haven Avenue, two express lanes will be constructed.

Retaining and Sound Wall Work:

Crews will continue to demolish retaining walls and sound walls at several locations near the EB lanes of I-10 between Mountain Avenue and Vineyard Avenue. This work will be loud and vibration will occur. Equipment used includes excavators, backhoes, loaders, and dump trucks.

Retaining walls and sound walls are located on State property next to the freeway. K-rail is placed on the freeway shoulders and crews work between the k-rail and wall locations. Once walls are demolished, materials are removed so crews can prepare the land for the replacement wall.

Daytime Retaining and Sound Wall Activity: Work will occur Monday through Friday between 6:30 a.m. and 4:00 p.m. Streets adjacent to this work include:

- N. Jasmine Court
- N. Iris Court
- N. Helen Court
- N. Oaks Court
- N. Gardenia Court
- N. Fuchsia Avenue
- N. Elderberry Court
- N. Dahlia Court
- N. Amber Court
- N. Beverly Court
- N. Oakland Avenue
- N. Bonita Court
- N. Caroline Court
- N. Kenmore Court
- N. Boulder Avenue
- N. Granite Avenue
- N. Cypress Avenue
- E. 6th Street
- N. Hope Avenue
- N. Allyn Avenue
- N. Orchard Lane
- N. Council Avenue
- N. Holmes Court
- N. La Paloma Court
- N. Cucamonga Avenue
- E. 5th Street
- N. Vineyard Avenue

Nighttime Retaining and Sound Wall Activity: Work will occur Monday through Friday between 9:00 p.m. and 5:00 a.m. (the next morning). Streets adjacent to this work include:

- N. Amber Court
- N. Beverly Court
- N. Oakland Avenue
- N. Bonita Court
- N. Caroline Court
- N. Kenmore Court
- E. 6th Street
- N. Hope Avenue
- N. Allyn Avenue
- N. Orchard Lane
- N. Council Avenue
- N. Holmes Court
- N. La Paloma Court
- N. Cucamonga Avenue
- E. 5th Street
