

As construction continues on the I-10 Express Lanes project, work in the City of Upland will generally occur Monday through Friday during daytime (6:00 a.m. to 4:00 p.m.) and nighttime (9:00 p.m. to 5:00 a.m.) hours, except as noted below. Please remember, all construction is dynamic and the schedule is subject to change.

For the most up-to-date closures and detours, please visit the project's [Google Map by clicking HERE](#).

Bridge Demolition and Construction

Eighteen bridges throughout the corridor will either be replaced, widened, or improved to accommodate the widening of the freeway. During times of demolition, shoring, and backfilling, work will be loud and vibration will occur. You will see bright lights and hear equipment including excavators, backhoes, loaders, and dump trucks. Upcoming bridge activities in Upland include:

- **Grove Avenue:** A portion of the eastbound (EB) and westbound (WB) I-10 shoulder over Grove Avenue was removed in December 2020. Crews will continue to prepare the existing bridge for widening. Daytime and nighttime activity includes installing temporary support structures (shoring). Work is expected to be complete in fall 2021.
- **Sultana Avenue:** Crews continue to build the new Sultana Avenue bridge over I-10. The new bridge is anticipated to open in spring 2021. Daytime and nighttime activity includes forming the bridge deck. Crews will be pouring the deck of the new Sultana Avenue bridge over I-10. This work is anticipated to occur over two nights (9:00 p.m. to 5:00 a.m.) in late-March. EB and WB I-10 will have lane closures and there may be intermittent full directional closures. More information will be provided.
- **Euclid Avenue:** Crews demolished the east side of the bridge and are working on rebuilding the northbound (NB) lanes. Daytime and nighttime activity includes forming the bridge deck and diaphragm. Work on Euclid Avenue began in mid-May 2020 and will last for approximately 18 months.
- **Benson Avenue:** A portion of the EB I-10 shoulder over Benson Avenue was removed in early-December 2020. Bridge widening work will continue for approximately two years. Crews will be excavating abutments (support structure at the end of a bridge) and installing temporary support structures (shoring) during daytime and nighttime hours. Benson Avenue between 6th Street and I-10 will be closed during daytime hours.
- **Mountain Avenue:** In November 2020, crews removed a portion of the EB I-10 shoulder over Mountain Avenue. Daytime and nighttime activities include pouring concrete, placing rebar, and removing portions of the abutment (support structure at the end of a bridge). Work began in fall 2020 and will last for approximately 18 months.

ABOUT THE PROJECT: Phase 1 of SB Express Lanes is located in the southwestern portion of San Bernardino County east of Los Angeles County between the Los Angeles/San Bernardino County line and I-15. The project includes two express lanes in each direction to offer trip reliability and ease congestion. In addition, lanes to assist drivers getting on and off the freeway (auxiliary lanes) will be constructed in selected locations. West of Haven Avenue, a single new lane will be constructed and combined with the existing HOV lane to provide two express lanes in each direction. The HOV lane will still be available to motorists, but will increase from 2+ to 3+. East of Haven Avenue, two express lanes will be constructed.

Retaining and Sound Wall Work:

Crews will continue to demolish retaining walls and sound walls near the WB lanes of I-10 between Campus Avenue and Sultana Avenue. This work will be loud and vibration will occur. Equipment used includes excavators, backhoes, loaders, and dump trucks.

Retaining walls and sound walls are located on State property next to the freeway. K-rail is placed on the freeway shoulders and crews work between the k-rail and wall locations. Once walls are demolished, materials are removed so crews can prepare the land for the replacement wall.

Daytime and Nighttime Retaining and Sound Wall Activity: Work will occur Monday through Friday between 6:30 a.m. and 4:00 p.m. and 9:00 p.m. and 5:00 a.m. (the next morning). Streets adjacent to this work include:

- Richland Street
- N. Hope Avenue
- N. 11th Avenue
- E. Deodar Street
- E. 6th Street
- N. Virginia Avenue
- N. Parkside Drive

Local Street Closures:

Crews are removing sound walls and retaining walls, relocating utilities, and removing trees on several local streets adjacent to the I-10; at times this work may be loud and you may feel vibration. One side of the sidewalk will always remain open.

- Daytime and/or nighttime lane closures (streets will remain open):
 - Mountain Avenue, San Antonio Avenue, Euclid Avenue, Richland Street, 6th Street, and Campus Avenue
- Daytime street closures (detour routes will be posted):
 - Benson Avenue: NB/southbound (SB) street closed between 6th Street and I-10
- Nighttime street closures (detour routes will be posted):
 - Euclid Avenue: NB street closed from 6th Street to 7th Street
 - 7th Street: EB/WB street closed between Euclid Avenue and 2nd Street

Ramp Closures:

Intermittent nighttime EB and WB on- and off-ramp closures, detour routes will be posted:

- Mountain Avenue
- Euclid Avenue
