

As construction continues on the I-10 Express Lanes project, work in the City of Upland will generally occur Monday through Friday during daytime (6:00 a.m. to 4:00 p.m.) and nighttime (9:00 p.m. to 5:00 a.m.) hours, except as noted below. Please remember, all construction is dynamic and the schedule is weather-permitting and subject to change.

For the most up-to-date closures and detours, please visit the project's [Google Map by clicking HERE](#).

Bridge Demolition and Construction

Eighteen bridges throughout the corridor will either be replaced, widened, or improved to accommodate the widening of the freeway. During times of demolition, shoring, and backfilling, work will be loud and vibration will occur. You will see bright lights and hear equipment including excavators, backhoes, loaders, and dump trucks. Upcoming bridge activity in Upland includes:

- **Grove Avenue:** In December 2020, a portion of the eastbound (EB) and westbound (WB) I-10 shoulder over Grove Avenue was removed. Crews will install shoring (temporary support structures) next to the bridge. This work may be loud at times. Work will occur during daytime and nighttime hours.
- **Sultana Avenue:** Crews continue to build the deck (surface) of the new Sultana Avenue bridge. Work will occur during daytime and nighttime hours.
- **Euclid Avenue:** Crews continue to rebuild the new wider portion of the eastside of the Euclid Avenue bridge and will install large concrete precast beams (girders). The girder installation is tentatively scheduled for four consecutive nights in late-January. Work is occurring during daytime and nighttime hours.
- **Benson Avenue:** A portion of the EB I-10 shoulder over Benson Avenue was removed in December 2020. Crews will install shoring next to the bridge. This work may be loud at times. Work will occur during daytime and nighttime hours.
- **Mountain Avenue:** In November 2020, crews removed a portion of the EB I-10 shoulder over Mountain Avenue. Crews will install shoring next to the bridge. This work may be loud at times. Work will occur during daytime and nighttime hours.

Local Street Closures:

- **Benson Avenue:** daytime lane closures between 6th Street and 7th Street; nighttime northbound (NB)/southbound (SB) street intermittently closed under I-10; detour routes will be posted
- **Mountain Avenue:** daytime and nighttime intermittent NB/SB lane closures between 6th Street and 7th Street
- **Euclid Avenue:** daytime and nighttime lane closures between 6th Street and 7th Street
- **Richland Street at Sultana Avenue:** daytime and nighttime intermittent lane closures

ABOUT THE PROJECT: Phase 1 of SB Express Lanes is located in the southwestern portion of San Bernardino County east of Los Angeles County between the Los Angeles/San Bernardino County line and I-15. The project includes two express lanes in each direction to offer trip reliability and ease congestion. In addition, lanes to assist drivers getting on and off the freeway (auxiliary lanes) will be constructed in selected locations. West of Haven Avenue, a single new lane will be constructed and combined with the existing HOV lane to provide two express lanes in each direction. The HOV lane will still be available to motorists, but will increase from 2+ to 3+. East of Haven Avenue, two express lanes will be constructed.
