What is the San Sevaïne Trail Connectivity Plan?

The City of Fontana is hosting community workshops for the San Sevaïne Trail Connectivity Plan. Currently, the San Sevaïne Trail is a 2-mile walking and cycling pathway used by the Fontana community. The City of Fontana is proposing to extend the existing trail 11.5 miles to the north and south of the City. The proposed trail would provide connectivity to key destinations throughout the city, including employment centers and schools. The Plan will be developed through a community-based process and will evaluate the preferred alignment and analyze potential challenges and solutions.
