INTERSTATE 10/PEPPER AVENUE INTERCHANGE

Colton, CA

May 2017

Overview

Construction is under way on the new Interstate 10 Interchange with Pepper Avenue in Colton. The San Bernardino County Transportation Authority (SBCTA) is leading the construction effort, in cooperation with the California Department of Transportation, County of San Bernardino, and City of Colton.

The interchange will provide improved freeway access to and from commercial and residential communities, most notably the Arrowhead Regional Medical Center. The project is constructing a five-lane bridge and improving on-ramps and off-ramps for better circulation on and off the freeway. Unique to this project is a Federal Pilot Program that offers incentives for hiring local and military veteran labor.

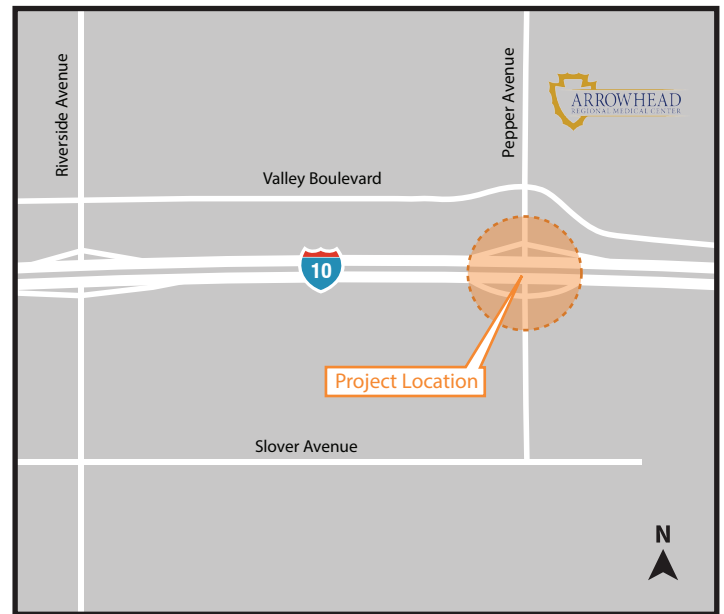

Construction began in March 2016 and is expected to be complete by fall 2017.

Features

- Five-lane bridge over Interstate 10
- On- and off-ramp improvements
- Bridge aesthetics consistent with community
- Access to and from Arrowhead Regional Medical Center
- Drainage enhancements
- Federal Highway Administration Pilot Program for local and veteran hiring

Funding

Funding for this project is a combination of Local, State and Federal funds. The City of Colton, County of San Bernardino, and SBCTA have partnered to provide the approximately \$10 million funding package needed for these necessary improvements along the busiest corridor in San Bernardino County. Measure I, the half-cent sales tax for transportation improvements, is contributing nearly \$400,000 to the project.

Safety: Our Top Priority

SBCTA reminds neighbors and commuters of the need to be safe near the I-10/Pepper Avenue construction zone. Please remember to:

- Slow down near the construction area
- Allow extra time to get to work and school
- Do not walk or ride in the construction site
- Watch for workers and equipment
- Look for changing conditions
- Note road closures and follow detours
