## 6TH STREET BRIDGE CLOSURE AND DEMOLITION

**WHAT'S HAPPENING:** As part of the I-10 Express Lanes project, 6th Street bridge over I-10 will be closed so crews can prepare the bridge for demolition. The closure is scheduled to occur as early as mid-June. After the bridge closes, underground utilities will be relocated and crews will be using excavators and hammers on the surface of the bridge. Construction on the new 6th Street bridge will begin immediately after demolition. Demolition of the bridge is scheduled to occur in the summer. Construction is anticipated to be complete in nine months.

### LOCAL DETOURS:

- **Eastbound to westbound 6th Street:** Grove Avenue south, west on Princeton Street, and north on Campus Avenue to 6th Street
- **Westbound to eastbound 6th Street (temporary until Sultana Avenue opens):** Campus Avenue north, east on E. 7th Street, and south on Grove Avenue to 6th Street

**WHAT TO EXPECT:** Construction is loud and dusty. Large equipment including illuminated light towers, haul trucks, excavators, and water trucks will be used. Vibration may occur at times. You may hear hammering, banging, and engine noises as well as see sparks from saw cutting.

**UPCOMING WORK:** Demolition is tentatively scheduled to occur in summer 2021. Closures for this demotion will include I-10 between Euclid Avenue and 4th Street Avenue. Detour routes will be posted. Information about these closures will be included in the project's weekly construction alert and the project Google Map.
