BENSON AVENUE SHORING INSTALLATION

In December 2020, crews started work to demolish and rebuild the I-10 over Benson Avenue as part of the I-10 Express Lanes Project.

For approximately two weeks, crews will install shoring to support bridge construction at Benson Avenue under the I-10.

This work is scheduled to occur weekdays, Monday through Friday, during daytime hours (6:30 a.m. to 4:00 p.m.).

During this work, there may be intermittent lane closures on Benson Avenue. Flaggers will be on site to direct traffic.

Work may be loud and you may feel vibrations as crews install temporary walls and support structures, and prepare the ground for the new support structures.

Additional project work is occurring on local streets, on- and off-ramps, freeway lanes, and connector ramps throughout the project corridor and will continue through mid-2023.

Please note, all construction is dynamic and dates and times for work are subject to change.
