Description
<p>The utilities in this area is owned by AT&T California. AECOM was directed to contact AT&T California (SBC - PAC BELL) for As-Builts. AT&T Network Services has a <u>leased conduit</u> from AT&T California. AT&T Network Services provided leased <u>documents showing an existing conduit located along Rialto Avenue.</u></p>
<p>AT&T requested representative to sign a non-disclosure letter to release as-built plans. <u>Hard copies of the as-built plans were received on 7/2/13.</u></p>
<p>SCE has provided as-builts for their facilities within the project area.</p>
<p>Charter has provided as-builts for their facilities within the project area.</p>
<p>SBMWD provided water utlity maps and supporting documentation. An existing 12" water line that pre-dates the bridge is located beneath the bridge. SBMWD is interested in relocating their facilities as part of the bridge construction.</p>
<p>TWC has provided as-builts for their facilities within the project area.</p>
<p>SCG has provided as-builts for their facilities within the project area.</p>
