4TH STREET UTILITY RELOCATION CONSTRUCTION NOTICE

WHEN: Beginning mid-May 2020

TIME: 9:00 p.m. to 5:00 a.m. Monday through Friday

WHERE: 4th Street between N. El Dorado Avenue and N. Baker Street in the city of Ontario.

WHAT'S HAPPENING: To prepare for construction of Phase 1 of the I-10 Express Lanes project, which includes bridge and ramp improvements to 4th Street, utility companies will relocate underground utilities through summer 2020. To do this, sections of 4th Street will be closed and excavated to allow crews to remove and replace pipes, duct banks, and equipment underground.

WHAT TO EXPECT:

- One side of the sidewalk will remain open to pedestrians at all times.
- 4th Street will remain open at all times.
- Lanes may shift to the left or right depending on where crews are working.
- There may be intermittent lane closures both south- and northbound.
- Flashing strobe lights on trucks, bright lights from light towers, sparks from saws, and dust during excavation.
- Noises from sawing, drilling, hammering, equipment engines and vehicle backup alarms.

Be alert of crews working within the corridor. All businesses will be open and accessible during construction.

Please remember all construction is dynamic and the schedule is weather-permitting and subject to change. For the most up-to-date information, please visit gosbcta.com/i10corridor.

ABOUT THE PROJECT: Phase 1 of I-10 Express Lanes is located in the southwestern portion of San Bernardino County east of Los Angeles County. The project will widen the existing I-10 freeway between the Los Angeles/San Bernardino County line and I-15, a distance of approximately 10 miles. The project includes two tolled express lanes in each direction. In addition, lanes to assist drivers getting on and off the freeway (auxiliary lanes) will be constructed

in selected locations. West of Haven Avenue, a single new lane will be constructed and combined with the existing HOV lane to provide two express lanes in each direction. The HOV lane will still be available to motorists but will increase from 2+ to 3+. East of Haven Avenue, two express lanes will be constructed.
