I. PROPOSAL INSTRUCTIONS

A. INTRODUCTION

The San Bernardino County Transportation Authority (“SBCTA”) is soliciting proposals from qualified contractors (“contractors” or proposers”) to assist SBCTA with Freeway Service Patrol (FSP) Services (“Project”). SBCTA has entered into a Memorandum of Understanding with the California Department of Transportation (Caltrans) and the California Highway Patrol (CHP) to operate FSP for traffic mitigation, as well as air quality improvement within San Bernardino County.

Section 21718 (a) of the California Vehicle Code specifically authorizes the CHP to be responsible for FSP stopping on freeways for the purpose of rapid removal of impediments to traffic. Section 91 of the California Streets and Highways Code states that Caltrans has the responsibility to improve and maintain the state highways. Caltrans also has the responsibility for traffic management and removing impediments from the highways.

The FSP consists of a fleet of tow trucks that continuously patrol an assigned Beat along selected San Bernardino County freeways for the purpose of assisting motorists with their disabled vehicles during peak periods of congestion. The stretch of highway that the fleet patrols up and down is referred to as a “Beat”. SBCTA currently has nine (9) Beats in service throughout San Bernardino County.

The areas in which FSP tow services are needed are:

- Beat 11 – I-10 Sierra Avenue to Waterman Avenue
- Beat 29 – I-10 Waterman Avenue to County Line Road

If awarded a contract, the Contractor shall have 90 calendar days for Beats 11 and 29, after the issuance of the Notice To Proceed, in which to acquire the required equipment, have it inspected, hire and train FSP Tow Truck Drivers and be operable. Any Contractor who cannot demonstrate to SBCTA’s satisfaction that it can meet the above-mentioned requirements will not be awarded the contract.

• Include a statement that key personnel will be available to the extent proposed, or designated by SBCTA, for the duration of the Project, acknowledging that no person designated as "key" to the Project shall be removed or replaced without the prior written concurrence of SBCTA.

c. Project Approach/Work Plan

This section of the proposal shall provide a narrative that addresses the Scope of Work and shows understanding of the Project needs and requirements.

Specifically:

The work plan shall be of such detail to demonstrate the Contractor’s ability to accomplish the project objectives and to meet the Project schedule in the RFP. signed by an authorized representative of the contractor and delivered to SBCTA’s Procurement Manager at the address identified herein.

IV. SELECTION CRITERIA AND WEIGHTS

A. The selection process shall be fair, open, and competitive.

B. The selection of the contractor will be based on clearly stated objectives identified in this RFP.

C. Selection of the contractor shall be based upon demonstrated competence, professional qualifications, experience, and capabilities and overall best value to perform the required Work identified in the Scope of Work.

D. Upon review of the proposals, a shortlist of contractors within the competitive range will be invited to an interview tentatively scheduled for Wednesday, September 23, 2020 through Thursday, September 24, 2020. At SBCTA’s discretion the interviews may be scheduled through Zoom. The contract will be awarded to the contractor who offers the overall best value, whose proposal best conforms to the RFP, and which is, in the opinion of SBCTA, most advantageous to SBCTA, and with whom a successful negotiation and agreement on cost and price can be concluded. The determination of the competitive range is at the sole discretion of SBCTA’s Evaluation Committee.

E. SBCTA reserves the right to reject any and all proposals and to negotiate with any responsible, responsive contractor. SBCTA is under no obligation to award a contract for the Scope of Work. At the conclusion of the evaluation process, the Evaluation Committee will recommend to the body or officer having authority to award the Contract on behalf of SBCTA (“Awarding Authority”) the contractor that offers the best overall value to SBCTA. SBCTA may or may not engage in negotiations with contractors who submit proposals; therefore, the contractor’s proposal should contain the most favorable terms and conditions including pricing, since the selection and award may be made without any discussion with any contractor.

Contractors who are invited to the interview will be asked a series of questions which will be scored. The maximum score for the interviews is 100 points. Upon completion of the interview, the Evaluation Committee shall compile their interview scores. The interview will be weighted - 60% and the technical proposal will be weighted 40%.

V. **NEGOTIATIONS AND AWARD**

The contract, Scope of Work and price may be negotiated with the selected contractor. However, SBCTA may elect to not negotiate with any of the contractors and/or not award the contract. Therefore, it is imperative that each contractor submit their best price as part of their proposal.

Contractors are advised that any recommendation for contract award is not binding on SBCTA until SBCTA’s Awarding Authority approves the contract and the contract is fully executed.

ATTACHMENT A – “SCOPE OF WORK”
FREEWAY SERVICE PATROL

BEAT 11: I-10 FROM SIERRA AVENUE TO WATERMAN AVENUE
BEAT 29: I-10 FROM WATERMAN AVENUE TO COUNTY LINE ROAD

SCOPE OF WORK

1.0 Summary of Scope of Work

CONTRACTOR shall provide the rapid removal of disabled vehicles and those involved in minor accidents from the freeway. Each Beat shall require the appropriate number of Freeway Service Patrol (FSP) Certified Trucks:

Two (2) primary certified FSP tow trucks and one (1) certified back-up FSP tow truck.

The CONTRACTOR’s FSP trucks shall be exclusively dedicated to providing FSP services during the designated hours of operation. All tow truck maintenance activities for the primary and back-up tow trucks shall be conducted during non-designated service hours.

CONTRACTOR's FSP Certified Tow Truck Drivers (“Driver or Drivers”) shall assist motorists involved in minor accidents and those with disabled vehicles. When and where conditions warrant, service may take place on the freeway shoulders. Where conditions do not warrant, Drivers will remove the vehicles from the freeway to provide services pursuant to the Standard Operating Procedures (SOP) Manual. The Drivers shall continuously patrol their assigned Beat, respond to California Highway Patrol (CHP) dispatched calls for service, and use the designated turnaround locations and designated drop locations assigned by CHP.

The Drivers may be required to change flat tires, provide "jump" starts, provide one gallon of gasoline or diesel fuel, temporarily tape cooling system hoses, and refill radiators. These services are not all-inclusive. Where conditions permit, safe removal of small debris may also be required. The Drivers are to spend a maximum of ten (10) minutes per disablement in attempting to mobilize a vehicle.

If a disabled vehicle cannot be mobilized within the ten-minute (10) time limit, it shall be offered to be towed to a designated drop location identified by the CHP. The motorist can request the FSP Driver to contact the CHP Communications Center to request a CHP Rotation Tow or other services. A Driver shall not be allowed to tow as an independent CONTRACTOR from an incident that occurred during the FSP shift. This is only allowed after the shift is over and the CONTRACTOR is called as a Rotation Tow by CHP. If called as a Rotation Tow Operator after a FSP shift, the Driver must remove all FSP markings such as vests, uniforms and any sort of FSP signage.

All FSP services shall be provided at no cost to the motorist. The Drivers shall not accept any gratuities, gifts or money to perform any other services, recommend secondary tows, or recommend repair/body shop businesses. The CONTRACTOR shall follow the SOP Manual.
The CHP is responsible for the day-to-day field supervision of the FSP Program; therefore, policies and procedures are outlined in the SOP Manual. To promote a safe work environment and to maintain a high level of professionalism, the CONTRACTOR and their Drivers must follow the SOP Manual as this document and all updates will be incorporated into the CONTRACTOR’s agreement. Please note that the SOP Manual is updated as needed, and that the CONTRACTOR is responsible to operate and adhere to the most recent version of the SOP Manual at all times.

There may be some instances where the Driver may be requested to provide assistance to CHP Officers in the field. When a CHP Officer in the field directs a Driver to complete a task, the Driver shall follow those directions provided, given the task does not endanger the Driver or the public and is within the Driver’s skills and training. The Driver shall only advise the officer of the possible dangers. If the task is not within the FSP policy, an FSP CHP Officer should be notified of the incident. Drivers should not tell the CHP Officer they will not perform the task requested UNLESS they believe they are unable to perform the task safely. Afterwards, CHP will take the necessary steps to avoid future misunderstandings between the Officer and FSP.

At times, SBCTA and/or the California Department of Transportation (Caltrans) will have construction projects on the highways that may require Construction FSP. Typically this will take place along a highway segment that is a construction zone with no inside or outside shoulder areas, or the shoulders available are not wide enough to accommodate vehicles. SBCTA and Caltrans have an agreement under which these types of services can be provided. Days and hours may vary for each construction project and will typically take place during non-FSP hours.

CONTRACTOR or its designated management-level representative shall attend the required FSP Technical Advisory Committee (TAC) meeting every other month. The FSP TAC will encompass focused and informal/formal discussions concerning but not limited to: scope, services, schedule, and current progress of services, relevant cost issues, and future project objectives. CONTRACTOR shall be responsible for having a representative attend all meetings (FSP TAC meetings) who has the ability to make management-level decisions on the behalf of the CONTRACTOR while at the meeting. If the CONTRACTOR cannot have a management-level representative at a meeting, CONTRACTOR shall notify SBCTA and CHP at least two (2) business days prior to the meeting. Management-level attendance at these meetings shall be considered part of the CONTRACTOR’s contractual responsibility. Meetings are scheduled for the entire calendar year; CHP provides the schedule via email.

Please refer to Contract Exhibit “C” for further details on violations and penalties.

2.0 Contract Representatives.

SBCTA, Caltrans, and the CHP will jointly oversee the FSP services (referred to, singularly or jointly, as “FSP Management”). CHP is responsible for dispatch services to incident locations within the tow truck's patrol limits, otherwise referred to as “Beats”. The dispatching will be done in accordance with the contract for the service. An SOP Manual will be provided to the successful CONTRACTOR explaining the types of incidents to which a Driver may be dispatched. Please note that this SOP Manual is updated as needed and that the CONTRACTOR is responsible to adhere to the most current version of the SOP Manual at all times. Also note that SBCTA’s contract
with the successful Proposer(s) will incorporate the SOP Manual and any updates; thus, adhering to the SOP Manual is a contractual requirement.

3.0 Service Location.

The FSP operates on selected freeway segments referred to as “Beats”. Each Beat has specific turnaround locations and designated drop locations identified by the CHP. The limits are identified in the SOW.

SBCTA reserves the right, at any time during the contract's term, to adjust Beat specifications (length of the Beat for example) and Beat hours to better accommodate demand for the service. These changes can occur during the course of the contract through written permission (e.g., email). The CONTRACTOR may be requested by CHP to go beyond the limits of its assigned Beat area to assist a motorist in an adjacent Beat area. Drivers may be permitted to do this only upon CHP request. SBCTA reserves the right to add or delete holidays to the work schedule. Travel time to and from the Beat will be at the expense of the CONTRACTOR.

4.0 Equipment Requirements:

A. Tow Truck Requirements:

Primary FSP Tow Trucks will be exclusively dedicated to FSP services during the hours of FSP operations. They are not required to be exclusive during non-FSP hours.

The FSP Program will utilize, at a minimum, Class A tow trucks with a minimum gross vehicle weight rating of 14,000 pounds, dual wheel chassis, and four (4) ton recovery equipment rating. All trucks proposed for use in the FSP Program must be less than one (1) year old with a maximum of 50,000 miles and a clear, non-salvage title on the chassis and working parts of the truck. The truck must be free of any mechanical defects or physical damage at the onset of the contract. Lastly, the truck shall have seating capabilities for five (5) adults.

The CHP, in conjunction with SBCTA, will verify the original purchase dates to ensure compliance.

All FSP Tow Trucks must be Department of Transportation (DOT) compliant, as well as California Air Resources Board (CARB) compliant. This includes an engine that has been certified by CARB, as required by law in the State of California. Any tow truck that is utilized for the FSP Program must comply with emission standards set forth by DOT and CARB, as well as all Local, State and Federal laws applicable to that truck, and as outlined in the RFP.

Prior to commencement of service, the CHP will inspect each tow truck designated for the FSP Program in San Bernardino County to ensure that it meets the tow truck specifications and to ensure that it meets or exceeds safety requirements. These inspections will occur prior to the start of service. Succeeding inspections will occur periodically as determined by the FSP CHP officers. Documentation of the vehicle identification number and successful completion of the inspection will be kept on file at the CHP office and CONTRACTOR's local office. Any unsafe, poorly
maintained FSP Certified Tow Truck(s) or improperly equipped FSP Certified Tow Truck(s) shall not be allowed into service, and if discovered during the shift, shall be removed from service or repaired as directed by the CHP. The CONTRACTOR shall be fined three (3) times the hourly contract rate in one (1) minute increments for ALL service time lost. The CONTRACTOR will be required to have a FSP Certified Back-Up Tow Truck available for service during their FSP Beat(s) shift(s).

Please note that FSP Certified Back-Up Tow Trucks for existing FSP tow operator contracts with other FSP agencies (i.e., not with SBCTA) do not qualify as meeting the certified SBCTA FSP back-up truck requirement(s).

FSP tow trucks bearing the service patrol title, the FSP logo, and the vehicle identification number shall be painted all white (includes the hood, fenders, doors, boom and bed area). No trim will be allowed. Lettering shall be in block lettering and shall be no less than two inches by two inches and no greater than four inches in height. Lettering can ONLY be black in color and will be bold style parallel to the ground. Letters shall be placed on the lower body of the truck toward the cab. Names, phone numbers, advertising of any kind or any other lettering on the boom shall be prohibited during FSP operational hours. The overall look of the truck must be approved by CHP prior to service implementation; therefore, any questions regarding this policy is highly recommended to be discussed with the FSP CHP officers prior to implementing, as truck compliance with current State FSP standards is required. No other accessory equipment or signage (bumper stickers, employment advertisement, and so forth) shall be mounted or installed without prior FSP CHP officer approval. This includes but is not limited to brass, chrome wheel covers, window tint, etc.

Please refer to Contract Exhibit “C” for further details on violations and penalties.

An Inspection form, which is in the tablet FSP data collection software, shall be completed by the Driver prior to the start of each shift and be available for inspection by the CHP and/or SBCTA. Any equipment that is malfunctioning or missing must be replaced prior to the start of the shift. All equipment on the truck shall be secured.

Installation of FSP related equipment:

Upon execution of the contract, SBCTA will designate and cover the cost of the selected installer for the SBCTA FSP digital radio equipment and SBCTA’s Automatic Vehicle Locator (AVL) equipment. SBCTA covers the initial cost of the FSP digital radio and the AVL equipment as well. Please note that SBCTA, along with the installer, must be able to access the required primary and back up FSP Tow Trucks no later than seven (7) business days prior to the start date of the Beat(s). No exceptions. If SBCTA is not able to access the required primary and back up FSP tow trucks and/or service truck by the seventh (7th) business day deadline, the CONTRACTOR shall be assessed a fine as detailed in Exhibit “C” of the contract.
At times, equipment such as an “outside speaker” or a handheld “mic,” for example, may need to be replaced due to normal wear and tear. If SBCTA-provided equipment needs to be replaced due to normal wear and tear, SBCTA will provide the CONTRACTOR with replacement equipment at no charge. However, please note that if FSP-related equipment needs to be replaced due to negligence by the CONTRACTOR or any of its staff, including Drivers, the cost of the equipment and the installation expense will be deducted from the CONTRACTOR’S invoice/payment that same month or the following month (depending on when the incident occurred). CONTRACTORS, supervisors and Drivers are required to contact SBCTA and one of the FSP CHP officers immediately when any SBCTA FSP equipment is damaged, failing or has failed, and the CONTRACTOR will be provided with a replacement part by SBCTA or by one of the FSP CHP officers. If a replacement part is not immediately available, then the CONTRACTOR will be asked to have their “FSP Certified Back-Up Tow Truck” on the Beat to cover the shift.

With the written permission of SBCTA (email is allowed), the CONTRACTOR may install some replacement equipment (e.g., an “outside speaker” or a “mic”) as long as the CONTRACTOR installs the equipment per SBCTA and SBCTA FSP standards. If a CONTRACTOR is given the authorization to install FSP-related equipment, and has any questions regarding “installation standards”, the CONTRACTOR is to contact SBCTA or one of the FSP CHP officers for further instructions/information. If provided the authorization by SBCTA or FSP CHP, the CONTRACTOR must install equipment in the safest possible manner, and the installation of the equipment must comply with all FSP equipment guidelines and San Bernardino FSP installation standards for safety reasons.

Please note that equipment requirements are subject to change at any time. For the most updated equipment list, please refer to the latest SOP Manual.

B. FSP Certified Back-Up Tow Truck.

The CONTRACTOR shall be required to have one FSP Certified Back-Up Tow Truck available for each Beat during FSP service hours that is in full compliance with this Contract, unless otherwise authorized by SBCTA in writing. The FSP Certified Back-Up Tow Truck should be used when a primary FSP Certified Tow Truck is unavailable. The FSP Certified Back-Up Tow Truck shall meet the same requirements for equipment, set-up and color as a primary Certified FSP Tow Truck. It shall meet all the vehicle equipment specifications. Please refer to Exhibit “C” of the contract for further details on violations and penalties. FSP Certified Tow Trucks are subject to inspections during FSP services hours and non-FSP service hours by CHP.

As noted above, Primary FSP Tow Trucks will be exclusively dedicated to SBCTA FSP services during the hours of FSP operations. However, FSP Certified Back-Up Tow Trucks are not required to be exclusive to the SBCTA FSP Program during FSP service hours and non-FSP service hours. If a FSP Certified Back-Up Tow Truck is needed to replace one of the primary FSP Certified Tow Trucks on Beat, the CONTRACTOR shall meet all Contract obligations as outlined, which includes the vehicle’s availability to work the Beat area within the 45 (forty-five) minute time period (after which point penalties begin to accrue).
C. Vehicle Breakdown and Other Missed Service.

A FSP Certified Back-Up Tow Truck must be in service on the Beat within 45 (forty-five) minutes of the time when a primary FSP Tow Truck is taken out of service for any reason. The CONTRACTOR shall not be paid for the time period that the contractually required trucks are not in service. If a vehicle is not made available within the 45 (forty-five) minute time period, the CONTRACTOR shall be fined three (3) times the hourly contract rate in one (1) minute increments until a FSP Certified Back-Up Tow Truck is provided. This 45 (forty-five) minute period prior to imposition of fines shall not apply to trucks removed from service for failure to meet specifications or safety requirements as set forth in paragraph A above, in which case fines shall begin immediately. If a FSP Certified Tow Truck is not ready due to a breakdown at the start of a shift, the fine time will be calculated from the start of the shift. If the entire shift is missed, the CONTRACTOR shall be fined for the entire shift at three (3) times the hourly rate. FSP Tow Truck maintenance shall be performed during non-FSP service hours.

In the event that a FSP Certified Back-Up Tow Truck is required to continue the shift, the Driver must complete a new inspection worksheet and mileage log prior to the commencement of driving the tow truck and notify one of the FSP CHP Officers/Supervisors immediately. In addition, the Driver must indicate in the “notes” section of the Tablet Computer (per 4.0 E., below) that they have switched to a FSP Certified Back-Up Tow Truck.

In addition, failure to have a FSP Certified Back-Up Tow Truck Driver available is not an allowable excuse for failing to have a FSP Certified Back-Up Tow Truck on the Beat within the 45 (forty-five) minute time period.

Please refer to Contract Exhibit “C” for further details on violations and penalties.

Please note: Existing FSP tow operator contracts with the Riverside County Transportation Commission (RCTC) or any other FSP service do not qualify as meeting the back-up requirement noted above.

D. Vehicle Identification.

It shall be the Driver’s sole responsibility to place detachable FSP markings on each vehicle during the service hours and to remove or cover the FSP markings immediately upon completion of each shift. SBCTA will supply each CONTRACTOR with the appropriate number of detachable markings for each Beat(s). If a marking is lost or damaged, the CONTRACTOR shall be responsible for the cost of the replacement markings. All FSP markings shall be returned immediately at the termination of the contract. The cost of any item or equipment supplied by SBCTA, Caltrans or CHP that is not returned shall be deducted from the CONTRACTOR’s final payment.

FSP markings as well as vehicle numbers shall be required on both sides of all FSP tow trucks and FSP service trucks. The detachable markings (magnetic or other forms of FSP signage) provided by SBCTA must be placed on the center of both doors (driver and passenger doors) of the vehicle. The Driver shall be required to keep the title and logos clean, straight and in readable
condition throughout the service patrol's operation. The CONTRACTOR is also required to keep all FSP-related signage completely flat, clean, out of direct sunlight and out of public view when being stored.

E. Communications Equipment.

Each FSP vehicle shall be equipped with various communication devices that will enable the Driver to communicate with the CHP Communications Center and FSP CHP Officers. All vehicles shall be equipped with an AVL system, radios, and handheld Tablet Computers for data collection. The AVL system, radio system, and handheld Tablet Computers shall be purchased, owned, supplied, and installed by SBCTA only. SBCTA shall select the equipment installation vendor.

The CONTRACTOR shall be responsible for maintaining the security of the SBCTA-owned vehicle communication equipment. The CONTRACTOR shall be liable for any damage other than normal wear and tear to the communication equipment. The CONTRACTOR shall also be liable for the full replacement value of the communication equipment installed in the trucks while in the care, custody and control of the equipment. SBCTA shall pay for repair of normal wear and tear to equipment. However, SBCTA will deduct from CONTRACTOR’s monthly invoice, any repair fees and/or the full replacement cost of any SBCTA equipment damaged or altered due to CONTRACTOR’s improper use or negligence. SBCTA-supplied vehicle equipment shall be returned immediately (within one to three business days – pursuant to direction by SBCTA FSP staff) upon contract termination. The cost of any equipment not returned shall be deducted from the CONTRACTOR's final payment.

Programmable scanners capable of scanning between the 39 and 48 MHz used by CHP shall be supplied by the CONTRACTOR and shall be installed and securely mounted in all FSP Certified Tow Trucks by the CONTRACTOR.

The CONTRACTOR is also required to use Push to Talk Plus for Verizon Wireless (or equivalent direct connect device that will pair with Verizon Push to Talk Plus CHP devices). Special Note: If you are considering purchasing something else other than a Verizon Push to Talk Plus device, please confirm with SBCTA and/or CHP as to whether or not the device will be compatible with existing CHP equipment. Equipment purchased for the FSP Program must be compatible with FSP CHP officer devices which are currently Verizon Push to Talk Plus devices in order to facilitate proper communication with the CHP Communications Center and FSP CHP field supervisors. Verizon phones shall be purchased, owned, maintained, and paid for by the CONTRACTOR. The CONTRACTOR will also be responsible for all operating costs of the Verizon cell phones. In addition, Drivers are not permitted to take pictures or video, or to capture any other images while performing FSP duties during FSP operational hours, or capture any FSP-related images during non-FSP service hours. These actions will not be tolerated and a Driver that is found doing this will not be permitted to work in the FSP Program. Drivers are not permitted to download or share any data or images related to the FSP Program. If any FSP-related data or images are found on any social media outlet or networks not authorized by SBCTA, the driver or drivers associated with the incident will be removed from the program.
Data input to the Tablet Computer shall not be allowed while the vehicle is being operated/driven. Use of other devices, such as cellphones, while driving/operating a vehicle is subject to California State Law.

The FSP vehicles shall be equipped with a public address system. The public address system shall have the capability to audibly transmit instructions from the cab of the FSP vehicle to the motorist of the disabled vehicle when the FSP vehicle is directly to the rear of the disabled vehicle.

The CONTRACTOR shall purchase and maintain a computer workstation (not a laptop) with high speed internet access and email to communicate with SBCTA, staff, and FSP CHP officers. Please note email is the primary means by which FSP Management (SBCTA, CHP, and Caltrans) communicate various operations messages. It is essential that a representative of the CONTRACTOR check the email daily.

It is the CONTRACTOR’s responsibility to ensure that all Tablet Computers are operational at all times. The exterior protective case of the Tablet Computer shall be cleaned regularly, and the screen protector shall be inspected for functionality and serviceability. **Damaged/Worn items shall be reported to SBCTA within three (3) hours of identification of a problem.** All Tablet Computers must be kept in a secure location. Tablet Computers shall not be left in any tow or service truck during non-FSP operational hours. During FSP operational hours, Tablet Computers must be with the Driver in their FSP Tow Truck; at all other times, Tablet Computers must be connected to a battery charger in the designated secure workstation of the CONTRACTOR’S facility. Any other location is not permitted.

CONTRACTOR shall immediately report any issues with the Tablet Computers to SBCTA or the FSP CHP Officers. CONTRACTOR is responsible for ensuring its Tablet Computers are operating at all times.

The CONTRACTOR shall provide SBCTA, FSP CHP Officers, and their designees, access to the Tablet Computers at any time during the course of the contract. If upon inspection SBCTA determines that the Tablet Computers are not being properly charged/stored, the CONTRACTOR will be subject to fines as outlined in Exhibit “C” of the Contract.

The CONTRACTOR shall provide a quarterly inspection report to SBCTA indicating the status of all equipment. SBCTA will provide the quarterly report submittal form to the CONTRACTOR. Accurate completion and timely return of this form is a contract requirement.

**F. Equipment Modifications**

Modifying FSP communication/tracking equipment so that it does not function properly to SBCTA’s specifications, is disconnected, or is moved (without FSP Management authorization) from its original installed location is strictly prohibited. This includes, but is not limited to: breaking evidence tape/connection sealer on equipment connections, cutting wires or cable, moving mounted equipment (speakers, microphones, antennas, etc.), rerouting any wiring, not
putting radio equipment back in its original installed location, disconnecting any connectors, etc. Interfering with the operations of the equipment is strictly prohibited.

If modification and/or interference is suspected, SBCTA shall conduct an inspection of the equipment on/near the Beat area or the vehicle may be sent to a designated location determined by SBCTA. CONTRACTOR shall not access the AVL equipment in any way until SBCTA has arranged an inspection.

1) If any alterations are found with AVL-related equipment owned by SBCTA, the CONTRACTOR shall be fined, at a minimum, two complete FSP shifts (7 - 9 hours) at three (3) times the hourly penalty rate. The final penalty shall be determined and assessed by FSP Management.

2) SBCTA shall designate the AVL installer and technician that to review and repair the AVL systems.

3) In the event of alterations, CONTRACTOR is responsible for any expenses, including but not limited to transportation, labor, repair, and replacement, incurred to repair the AVL equipment/system for the SBCTA FSP tow operations. Please refer to Attached Map of Beat areas

“Extra Work” for emergency coverage may be assigned for any of the nine (9) SBCTA FSP service areas:

1. Beat 5: SR-60 from Milliken Avenue to Reservoir Street (LA County line)
2. Beat 9: I-10 from Indian Hill Street (LA County line) to Haven Avenue
3. Beat 10: I-10 from Haven Avenue to Sierra Avenue
4. Beat 11: I-10 from Sierra Avenue to Waterman Avenue
5. Beat 14: I-215 from the Riverside County line to Devore Road
6. Beat 23: I-15 from the Riverside County line to Sierra Avenue
7. Beat 29: I-10 from Waterman Avenue to County line Road (Riverside County line)
8. Beat 27: I-15 from Sierra Avenue to Oak Hill Road
9. Beat 31: I-210 from the Los Angeles County line to Citrus Avenue

Beats 11 and 29 are the priority Beats for this contract, which means that should a primary truck go down; the “Extra Work” Beat truck shall be deployed back to the primary Beat. SBCTA shall evaluate all travel times made from the “Extra Work” Beat to the primary Beat in a penalty time situation on a monthly basis. Final penalty determination shall be made by CHP and SBCTA.
The contractor shall hold to all required standards about truck image and maintenance for the FSP Certified Back-Up Tow Truck being used during “Extra Work”, as CHP shall retain all rights to inspect and put the trucks out of service for non-compliance. Penalties shall still apply. In the event that the “Extra Work” Beat truck must be sent to cover the primary Beat, no penalty time shall be assessed for not having that back-up truck on the “Extra Work” Beat.

SBCTA reserves the right to change Beat hours and operational requirements during the course of the Contract. Written notice from SBCTA shall be required for commencement and termination of “Extra Work”.

CONTRACTOR agrees that individual items of cost identified in the audit report may be incorporated into the Contract at SBCTA’s sole discretion. In the event the CONTRACTOR fails to obtain or maintain any insurance coverage required, SBCTA may, but is not required to, maintain this coverage and charge the expense to the CONTRACTOR or withhold such expense from amounts owed CONTRACTOR, or terminate this Contract. The insurance required or provided shall in no way limit or relieve CONTRACTOR of its duties and responsibility under the Contract, including but not limited to obligation to indemnify, defend and hold harmless the Indemniteses named below. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve CONTRACTOR for liability in excess of such coverage, nor shall it preclude SBCTA from taking other actions as available to it under any other provision of the Contract or law. Nothing contained herein shall relieve CONTRACTOR, of their obligations to exercise due care in the performance of their duties in connection with the Work, and to complete the Work in strict compliance with the Contract.
22.2.9 **No Waiver.** Failure of SBCTA to enforce in a timely manner any of the provisions of this Article shall not act as a waiver to enforcement of any of these provisions at a later date.
