

**San Bernardino Council of Governments
Grant Opportunities and Forecast
October 14, 2021**

*(**NEW!** is noted for grants added in the past 14 days)*

Grant opportunities that may be of interest to SBCOG begin on the next page.

Table 1 includes a list of new grant opportunities since the last grant table.

Table 2 includes open grant opportunities. The “Success Rate” for each opportunity (if known) is indicated in **blue** in the “Notes” column. This is based on the number of applications awarded in relation to the number of applications submitted. The table also includes a link to past grant awards, if available. Additionally, we have included the anticipated level of difficulty to develop each grant proposal. A key is provided below for reference:

Key: Level of Difficulty (LOD)	
Simple	A simple level of difficulty indicates an application that may take 8 hours or less to develop and can likely be accomplished “in-house” with minimal effort/allocation of internal resources.
Medium	A medium level of difficulty indicates an application process that will take a more substantial allocation of internal resources to accomplish and might possibly require outside assistance (20-70 hours to develop application).
Complex	A complex level of difficulty indicates a VERY competitive opportunity, with a small success rate and intensive grant-development and positioning.

Table 3 includes a list of grants that are on the horizon, but NOFAs have not been released. Success rates, links to past awards, and anticipated level of difficulty are not listed in Table 3.

TABLE 1 New Grant Opportunities			
Deadline	Name of Grant	Grant Number	Page Number
10/15/21	COVID-19 Fiscal Relief for Special Districts	3	6

4	10/18/21 Water	<p>Stream Flow Enhancement Program. To implement the three objectives of the California Water Action Plan: more reliable water supplies; restoration of important species and habitat; and more resilient, sustainably managed water infrastructure that can better withstand inevitable and unforeseen pressures in the coming decades. The goals of the program are:</p> <ul style="list-style-type: none"> • Support projects that lead to meaningful increases in the availability and quality of water in streams, particularly by protecting and restoring functional ecological flows for streams identified as a priority for fish and wildlife. • Support projects that work to remove key barriers to securing enhanced flows for nature. • Support projects that allocate resources for infrastructure for evaluating stream flow conditions and stream responses to enhancement efforts. • Proposals must lead to, or result in, actions that enhance stream flow. Proposals may result in multibenefit projects that improve conditions for anadromous fish; support special status, threatened, endangered, or at-risk species; or increase climate resilience. 	CA Wildlife Conservation Board	State	Not stated	Points awarded for match	<p>https://wcb.ca.gov/Programs/Stream-Flow-Enhancement</p> <p>Link to Prior Awards: Not available</p> <p>Success Rate: 2020: 29 projects funded (16 planning, 9 implementation, 2 acquisition and 4 scientific studies). 2019: 27 applications submitted; 19 funded (6 planning, 7 implementation, 3 acquisition, 3 scientific studies); success rate was 70%.</p> <p>LOD: Medium</p>

11	11/04/21 LOI 02/08/22 Full application if invited Equity Policy	People, Park and Power. Will support community-based organizations and base-building groups working in urban, low-income communities of color across the United States to increase park equity through local policy and systems change. The geographic focus of the P3 initiative is urban areas—with a particular interest in small and midsize cities (under 500,000 population). The “north star” of the P3 initiative is upstream policy and systems change, <u>not</u> planning, building, or operating individual, on-the-ground projects. The Foundation is interested in funding a spectrum of eligible organizations across the United States that either are in later or early stages of policy advocacy and systems change efforts to advance park equity.	Robert Wood Johnson Foundation	Private	\$500,000 for 2 years	Not required	https://www.rwjf.org/en/library/funding-opportunities/2021/people-parks-and-power-a-national-initiative-for-green-space-health-equity-and-racial-justice.html Link to Prior Awards: Not available Success Rate: Not available LOD: Medium

54	Ongoing Brownfields	Targeted Brownfields Assessment Technical Assistance Program. (TBA) To conduct Phase I Environmental Site Assessment (ESA) and/or Phase II ESA which documents environmental conditions at a property under consideration for redevelopment. The TBA can also be used to evaluate various cleanup alternatives, costs and reuse planning. EPA's environmental consultants will conduct the TBA. Communities participating in a TBA will receive a written report detailing the findings of the Phase I or Phase II ESA. The reports are intended to help meet due diligence requirements of real estate transfer, and to identify environmental impediments to redevelopment. A Phase I ESA includes background and historical investigations, a site/area walkthrough inspection, inter views with landowners and neighbors, and a written report. A Phase II ESA includes sampling to identify the types, concentrations, and areas of potential contamination. Cleanup options along with cost estimates and other technical reports.
