

**San Bernardino Council of Governments
Grant Opportunities and Forecast
April 26, 2022
(NEW! is noted for grants added in the past 14 days)**

Grant opportunities that may be of interest to SBCOG begin on the next page.

Table 1 includes a list of new grant opportunities since the last grant table.

Table 2 includes open grant opportunities. The “Success Rate” for each opportunity (if known) is indicated in **blue** in the “Notes” column. This is based on the number of applications awarded in relation to the number of applications submitted. The table also includes a link to past grant awards, if available. Additionally, we have included the anticipated level of difficulty to develop each grant proposal. A key is provided below for reference:

Key: Level of Difficulty (LOD)	
Simple	A simple level of difficulty indicates an application that may take 8 hours or less to develop and can likely be accomplished “in-house” with minimal effort/allocation of internal resources.
Medium	A medium level of difficulty indicates an application process that will take a more substantial allocation of internal resources to accomplish and might possibly require outside assistance (20-70 hours to develop application).
Complex	A complex level of difficulty indicates a VERY competitive opportunity, with a small success rate and intensive grant-development and positioning.

Table 3 includes a list of grants that are on the horizon, but NOFAs have not been released. Success rates, links to past awards, and anticipated level of difficulty are not listed in Table 3

**TABLE 1
New Grant Opportunities**

Deadline	Name of Grant	Grant Number	Page Number

55	Ongoing; reviews quarterly Workforce	<p>Wood Products & Bioenergy Program Business & Workforce Development. Two project types are eligible for funding: Business development and workforce development. Research and development proposals for business and workforce development will also be considered. Projects may include planning, organizational and business capacity-building, and workforce and infrastructure development as components of proposed projects. Following are examples of activities eligible for funding through Wood Products:</p> <ol style="list-style-type: none"> 1. Manufacturing solid wood products from forest materials that allow for continued carbon storage. 2. Develop and increase capacity at tree nurseries. 3. Develop and expand businesses and workforce in industry support services. 4. Use forest biomass to generate energy, using energy- production displacing carbon-intensive fossil fuel- based energy. 5. Marketing or utilization of forest products for beneficial uses. 6. Research and development activities that support workforce development and wood products infrastructure development in California. 	California Department of Forestry and Fire Protection (CalFire)	State	<p>Business Development:</p> <ul style="list-style-type: none"> • \$10,000 to \$500,000/1:1 • \$500,000 to \$2 million/1:2 <p>Workforce Development:</p> <ul style="list-style-type: none"> • \$10,000 to \$500,000/ no match • \$500,000 to \$5 million/9:1 <p>Research and Development:</p> <ul style="list-style-type: none"> • \$10,000 to \$500,000/ no match <p>Tree Nurseries:</p> <ul style="list-style-type: none"> • \$50,000 to \$1 million/ no match 	See maximum funding	<p>https://www.fire.ca.gov/programs/resource-management/climate-change-and-energy/wood-products-and-bioenergy-program/</p> <p>Link to Prior Awards: Not Available</p> <p>Success Rate: Not Available</p> <p>LOD: Medium</p>

57	Ongoing Brownfields	<p>Targeted Brownfields Assessment Technical Assistance Program. (TBA) To conduct Phase I Environmental Site Assessment (ESA) and/or Phase II ESA which documents environmental conditions at a property under consideration for redevelopment. The TBA can also be used to evaluate various cleanup alternatives, costs, and reuse planning. EPA's environmental consultants will conduct the TBA. Communities participating in a TBA will receive a written report detailing the findings of the Phase I or Phase II ESA. The reports are intended to help meet due diligence requirements of real estate transfer, and to identify environmental impediments to redevelopment. A Phase I ESA includes background and historical investigations, a site/area walkthrough inspection, inter views with landowners and neighbors, and a written report. A Phase II ESA includes sampling to identify the types, concentrations, and areas of potential contamination. Cleanup options along with cost estimates and other technical reports.</p>	U.S. Environmental Protection Agency	Federal	Awardees receive technical assistance	Not required	<p>https://www.epa.gov/brownfields-and-land-revitalization-activities-near-you</p> <p>Link to Prior Awards: Not Available</p> <p>Success Rate: Not Available</p> <p>LOD: Medium</p>
