

**Notice for June 17 through June 30, 2024**

Construction of the I-10 Express Lanes is 95% complete. Crews continue to work throughout the ten-mile corridor on installing barriers, reconstruction of bridges, retaining walls, sound walls, utility relocation, and pavement rehabilitation. Traffic patterns may change as lane configurations are reconstructed. Work in the City of Upland will generally occur Monday through Friday during daytime (6:00 a.m. to 4:00 p.m.) and nighttime (9:00 p.m. to 5:00 a.m.) hours, except as noted below. Please remember, all construction is dynamic and the schedule is subject to change.

**For the most up-to-date closures and detours, please visit the project's [Google Map by clicking HERE](#).**

**Bridge Demolition and Construction**

Work continues on the remaining bridges that are being replaced, widened, or improved to accommodate the widening of the freeway. Upcoming bridge activities in Upland include:

Anticipated completion in summer 2024:

- Euclid Avenue

Reconstruction is complete on ten bridges. At some locations crews continue to work on sidewalks, approach slabs, barriers, paving, and decorative work. Completed bridges in Upland include:

- I-10 over Benson Avenue
- I-10 over Mountain Avenue
- San Antonio Avenue over I-10
- Campus Avenue over I-10

**Local Street Closures:**

Crews are relocating utilities and completing curb, gutter, sidewalk construction on several local streets adjacent to the I-10; at times this work may be loud and you may feel vibration. One side of the sidewalk will always remain open.

Daytime and/or nighttime lane closures, streets will remain open:

- Mountain Avenue and Euclid Avenue

**Ramp Closures:**

Intermittent nighttime westbound/eastbound on- and off-ramp closures, detour routes will be posted:

- Mountain Avenue

**ABOUT THE PROJECT:** Phase 1 of SB Express Lanes is located in the southwestern portion of San Bernardino County east of Los Angeles County between the Los Angeles/San Bernardino County line and I-15. The project includes two express lanes in each direction to offer trip reliability and ease congestion. In addition, lanes to assist drivers getting on and off the freeway (auxiliary lanes) will be constructed in selected locations. West of Haven Avenue, a single new lane will be constructed and combined with the existing HOV lane to provide two express lanes in each direction. The HOV lane will still be available to motorists, but will increase from 2+ to 3+. East of Haven Avenue, two express lanes will be constructed.
