SCOPE OF WORK

San Bernardino County SB 960: 360° Implementation Plan Grant Award (Short title: 360° for 960)

Project Information	
Grant Category	Sustainable Communities
Grant Fiscal Year	FY 2025-2026
Project Title	San Bernardino County SB 960: 360° Implementation Plan (Short title: 360° for 960)
Organization	San Bernardino County Transportation Authority

Background

As the title indicates, this project will take a 360 degree look at Senate Bill (SB) 960, which applies to state highways, in San Bernardino County. It will take a grassroots, 360° (from all angles) approach to identifying targets and performance measures for complete street assets in San Bernardino County along the California Department of Transportation (Caltrans) state highway system as required by SB 960 regulation.

Together with the public, community-based organizations, member jurisdictions, transit operators, and Caltrans, the project will (1) identify and assess bike, pedestrian, and transit facilities on and along the state highway system, (2) review key studies, plans, and best practices, (3) define performance measures and solutions supporting active transportation and transit, and (4) set clear targets with quantifiable accomplishments, goals, objectives, costs, and performance measures. These features will be delivered via an online StoryMap hosted on the San Bernardino County Transportation Authority's (SBCTA) website with relevant downloadable geographic information system data and application programming interface (API) links.

This project is needed not only because SB 960 mandates it but because transportation agencies need to better protect and serve vulnerable road users of all abilities and means, particularly in San Bernardino County where 13.2% live in poverty, which is higher than both the state (12.3%) and national (12.8%) averages (source: U.S. Census Bureau, American Community Survey, 1-Year Estimates). In addition to meeting SB 960 requirements, 360° for 960 also addresses the guiding principles of the Climate Action Plan for Transportation Infrastructure, 2024 Regional Transportation Plan/Sustainable Communities Strategy, and SBCTA's Long Range Multimodal Transportation Plan by making transit and active transportation more viable and attractive transportation options.

The County of San Bernardino is the largest county in the continental United States spanning over 20,000 square miles and home to a population of 2.2 million. The county boasts roughly 980,000 jobs and a diverse mix of geography that includes urban development, farmland, the San Bernardino Mountains, and expansive desert regions. With almost 1,200 miles of state highways, San Bernardino County has more state highway mileage than for Los Angeles and Orange Counties combined.

The Caltrans network is the backbone of San Bernardino County's highway system and is the primary "main street" for many of the outlying communities. For example, in the Victor Valley, Interstate 15 (I-15), U.S. 395, State Route (SR) 18, and SR 138 all play critical roles in local mobility as well as regional, and SR 62 can be considered the "main street" of the Morongo Basin. The primary arteries in the mountains are almost all state highways.

SB 960 and the Caltrans District 8 Active Transportation Plan

The SB 960 legislation can be reviewed at: [Bill Text - SB-960 Transportation: planning: complete streets facilities: transit priority facilities](#). The following statement from the bill text indicates the reason the bill was thought to be needed:

“Despite policy commitments by the department since 2008 to implement safe and multimodal street designs, progress toward implementation has been slow. The 2024 draft state highway operation and protection program (SHOPP) reveals that significant progress must still be made toward achieving the policy set forth in DP-37 and delivering facilities that are comfortable, convenient, and connected for users of all ages and abilities. According to the 2024 draft SHOPP, only 21 percent of SHOPP projects include meaningful complete streets facilities, such as bikeways, sidewalks, and crosswalks, and the investment levels fall short of being on track to reach the department’s 10-year investment projections. At the same time, deaths and serious injuries from vehicles in California reached an over 30-year high in 2022, which is the most recent year with finalized data.”

Among other things, the bill would require the department to commit to specific 4-year targets to incorporate complete streets facilities, including pedestrian and bicycle facilities, into projects funded by the SHOPP (State Highway Operations and Protection Program).

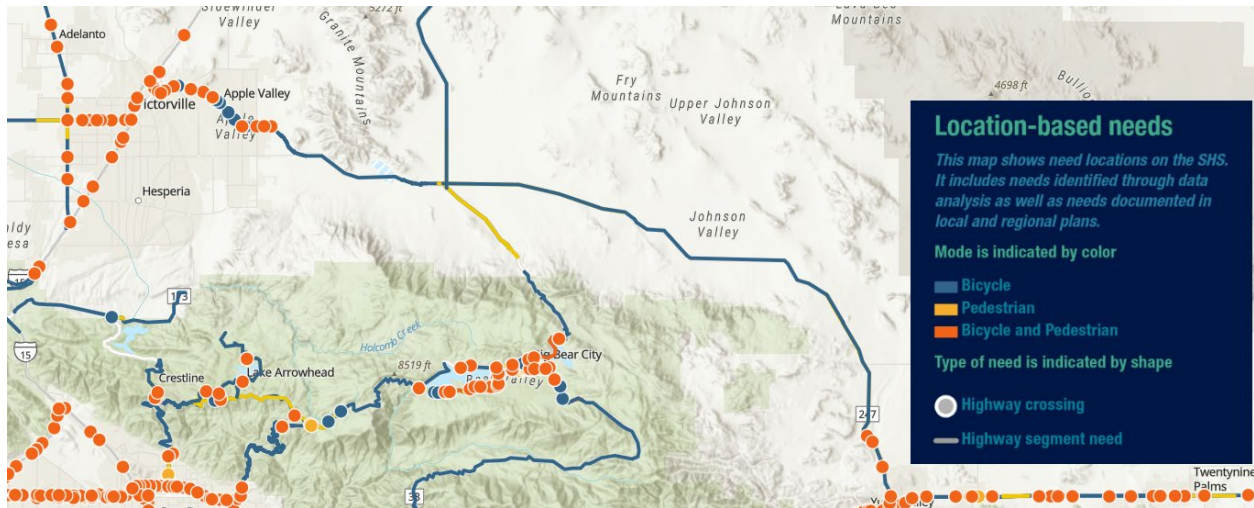

Significant groundwork has already been laid for this project through the Caltrans District 8 Active Transportation Plan (ATP). An ArcGIS StoryMap provides an interactive way to view existing conditions and needs for people walking and biking in District 8, which includes the counties of San Bernardino and Riverside. The primary outputs of the ATP are lists and maps of location-based needs, prioritized highway segments, and prioritized highway crossings, which are also mapped on this site. The site can be accessed through this link: [Caltrans District 8 Active Transportation Plan](#).

Caltrans evaluated data about the SHS from its own inventories, from local and regional plans, and from extensive public input to determine where gaps and barriers in walking and bicycling infrastructure are present. Locations were identified as having needs if they met one or more of the following criteria:

- Main Street sidewalk gaps
- Sidewalks in fair or poor condition
- Sidewalks along higher-speed highways
- Stressful pedestrian or bicycle crossings (accounting for the absence of median islands and marked crossings, posted speed limits, and other factors)
- Stressful bicycle segments (due to factors such as high speeds, high traffic volumes, and narrow or absent bikeways)
- Infrequent opportunities to cross under or over freeways
- Freeway interchanges requiring upgrades of various kinds to be more comfortable for people walking or bicycling

On the following page the map shown in Figure 1 displays where location-based needs exist in District 8 for people walking or bicycling along the highway (shown as lines) or across the highway (shown as dots). Many of the dots shown on freeways are related to crossings at freeway interchanges.

Figure 1. Location-Based Needs from the District 8 ATP StoryMap

Most transit riders do not have cars and are solely dependent upon transit and/or our active transportation system. In addition, access to transit stops on many of the arterial state highways lacking or inconsistent and the bicycle/pedestrian connections are often spotty or non-existent. For example, on SR 62 in Yucca Valley, there are no provisions bicycles on or parallel to the roadway and sidewalks are spotty or discontinuous. In the photograph below (Figure 2), looking westbound east approaching the SR 247 junction, there is a relatively new transit shelter but sidewalk connectivity eastbound is limited and the westbound connectivity is non-existent. This results in longer walking distances and conditions that could be hazardous. For some highways, bicycle accommodations on the state highway may be appropriate; in other cases, it may be more appropriate for accommodations on a parallel local street. These are some of the types of design dilemmas that need to be addressed to carry out the objectives of SB 960.

Figure 2. SR 62 Looking Westbound, East of SR 247

On the following page Table 1 outlines how the 360° for 960 Implementation Plan will help Caltrans meet SB 960 obligations while going above and beyond to ensure obligations are met in a meaningful way that will maximize the long-term benefits of the effort.

The Caltrans District 8 ATP has already identified most, if not all, locations where bicycle and pedestrian deficiencies exist on state highways (**Figure 1**). Deficiencies have also been identified with the help of the public on SR 18 as documented in the recently completed “Town of Apple Valley Corridor Connections: Highway 18 Access Plan” which recommends a corridor-wide multi-use path, crosswalk additions and enhancements, signal modifications, drainage improvements, and shade.

Additionally, Victor Valley Transit Authority staff has identified an opportunity along I-15 where congestion during peak hours makes it difficult to provide reliable transit service. This area has also been identified as an equity priority community in District 8’s ATP (**Attached Exhibits 7 and 10-12**). While the future Brightline project will help alleviate congestion caused by “Vegas Traffic,” particularly southbound return trips on Sundays, there is still sufficient local congestion to warrant examination of bus-on-shoulder opportunities. Ultimately, the goal should be to make transit not only a viable option but a preferable one. Providing buses with traffic-free lanes on state highways is one way to accomplish this goal.

The 360° for 960 Implementation Plan will make recommendations for how to address active transportation and transit deficiencies on the state highway system in San Bernardino County and identify candidate projects for incorporation into the SHOPP or that could be funded through a collaboration with SBCTA and its member agencies.

Task 01: Project Administration

Given that the focus of SB 960 is on state highways, SBCTA and Caltrans District 8 Planning will be collaborating closely throughout the project. Upon project award, SBCTA, will coordinate a project kick-off meeting with Caltrans to discuss grant procedures and project expectations including invoicing, quarterly reporting and all other relevant project information including scope, consultant type, and stakeholders. SBCTA will highlight and determine scope refinements.

As the project progresses, SBCTA will prepare and submit invoice packages, quarterly reports, and a final close-out report in accordance with Caltrans' requirements. Invoice packages and reports will be based upon completion of project phases as identified in the grant contract and include project expenditures to-date.

*Task Deliverables
<ul style="list-style-type: none">• Project kick-off meeting at the start of the program with Caltrans and SBCTA, and• Invoicing and quarterly reporting to Caltrans

Task 02. Consultant Procurement

SBCTA will procure an experienced consultant, consistent with state and federal requirements, Local Assistance Procedures Manual for procuring non-Architectural and Engineering Consultants, the Grant Application Guide, Regional Planning Handbook, and the executed grant contract between Caltrans and SBCTA.

SBCTA will develop a preliminary scope of work and initial Request for Proposal (RFP) for Caltrans' Review. SBCTA will then refine and release the RFP, subject to SBCTA Board and Caltrans approval.

SBCTA and Caltrans will review and determine the most qualified consultant, with SBCTA awarding a contract to the selected consultant.

A project kick-off meeting will be scheduled with consultant and stakeholders to discuss the proposed work plan and establish tasks and timelines in accordance with Caltrans grant requirements. The consultant will finalize an action plan outline for SBCTA staff approval.

Task Deliverables

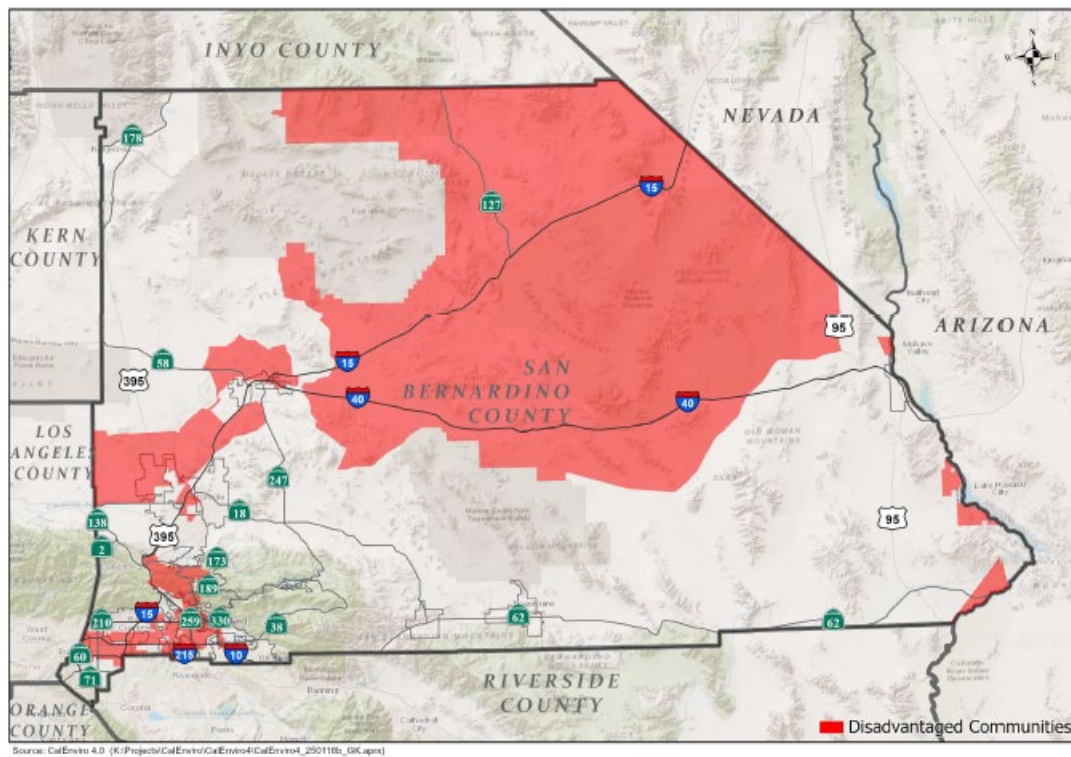

- Meeting agenda, participant list, meeting notes, list of action items,
- Draft Scope of Work and Request for Proposal,
- Final RFP,
- Review and ranking of qualifications by SBCTA staff/Caltrans,
- Executed consultant contract, and
- Meeting agenda, participant list, meeting notes, list of action items and action plan.

Task 1. Technical Advisory Committee (TAC) and Stakeholder Outreach

Legislators and the public have been repeatedly calling for more complete street options via several avenues including through (1) the passing of SB 960, (2) calls for more active transportation options and improved transit service during development of the SBCTA Long Range Multimodal Plan (<https://www.gosbcta.com/wp-content/uploads/2024/12/Draft-LRMTP-Appendix-A-Community-and-Stakeholder-Engagement.pdf>), (3) public comments on District 8's ATP, and (4) during local planning efforts such as the "Town of Apple Valley Corridor Connections: Highway 18 Access Plan" public outreach process. The 360° for 960 Implementation Plan will help tie it all together and lay the foundation for complete streets and/or strategic complete street features on the state highway system in areas where it is appropriate to do so.

Approximately 43% (or 936,000) of the County's population resides within the disadvantaged communities designated by CalEPA for the purpose of SB 535. These areas represent the 25% highest scoring census tracts in CalEnviroScreen 4.0. (**Figure 3**). In fact, the City of San Bernardino (pop: 222,101), the largest of the 24 cities within the County, is the number one ranked impacted area in the State. Overall, the County ranks poorly in air quality, with an "F" grade from the American Lung Association's 2025 Annual State of the Air Report and being located in an extreme non-attainment area for ozone in the South Coast Air Basin. The County also suffers from poor public health outcomes and high fatality rates, especially for bicyclists and pedestrians. Health indicators in the County Community Indicators Report show that 68% of adults in San Bernardino County are either obese or overweight, compared to 62% of adults in California. Residents in disadvantaged communities are less likely to own cars, and more dependent upon our transit and active transportation systems to get to school, work or play. These residents are also more acutely impacted by vehicular emissions, contributing to the health statistics cited above.

Figure 3. Disadvantaged Communities (SB 535)

Ordinarily, a project might begin its public/stakeholder involvement with the identification and assessment of existing conditions and relevant plans. However, because this project will be relying heavily on grassroots efforts, it is important to bring the stakeholders, advisory committees, and public onboard right away. While District 8 ATP has already identified a list of active transportation deficiencies on the state highway system, additional outreach must be done to identify transit deficiencies.

The 360° for 960 Implementation Plan will develop and implement an extensive Outreach Plan that will contain Part I focused on TAC and stakeholder engagement (Task 1) and Part 2 that is focused on engagement of the public at large (Task 2). Both will be used in conjunction to identify transportation opportunities that lead to greater mobility and healthier environments for DACs by improving transit accessibility and reducing VMT (and the resultant GHG emissions), along with providing more walking and biking options to improve both safety and physical activity levels in our DACs. With this in mind, the Outreach Plan Part I: TAC and Stakeholders will:

- Develop and meet with a TAC of local jurisdiction and transit agency staff a minimum of five (5) times, and
- Develop and meet with a diverse stakeholder group of community and business representatives a minimum of five (5) times.

Task Deliverables

- Outreach Plan Part I: TAC and Stakeholders,
- Confirmed list of core technical group and larger stakeholder group members,
- Minimum of 5 technical advisory meetings, with agendas, participant lists, comments, summaries, recordings, and follow-up comments, and
- Minimum of 5 stakeholder (including DAC participation) meetings, with agendas, participant lists, comments, summaries, recordings, and follow-up comments.

Task 2. Public Outreach

Public engagement will serve as the backbone for the 360° for 960 Implementation Plan by both informing the process and mobilizing support. Some of the community members that are likely to be most impacted by complete streets efforts are the ones that are often the most difficult to engage due to financial and schedule constraints. Thus, a great deal of effort must be made to get into our local communities to ensure all voices are heard to the greatest extent possible. To achieve this, the Outreach Plan Part II: Public Engagement will develop and conduct:

- Public outreach at a minimum of five (5) community events,
- Organization of at least three (3) on-site, multimodal audits, one for each of three state highway “focus areas” as identified in Task 3. These field visits will look at all modes, with an emphasis on walk, bike, and ride (via transit),
- Advertising materials, printouts of website and social media posting and any commentary, and meeting recording,
- Release online survey(s) that provide a forum for public input from citizens unable to attend community events, and
- Publication of an online StoryMap that provides a copy of the Outreach Plan Parts I and II, project updates, notification of upcoming meetings and field audits, and collects location-based comments.

Task Deliverables
<ul style="list-style-type: none">• Outreach Plan Part II: Public Engagement,• 360° for 960 logo,• A minimum of 5 community events with summary of input gathered,• At least 3 on-site, multimodal audits, one for each of three state highway “focus areas” as identified in Task 3 (these field visits will look at all modes, with an emphasis on walk, bike, and ride via transit),• Online survey(s),• Advertising materials, printouts of website and social media posting and any commentary, and meeting recordings, and• StoryMap that provides a copy of the Outreach Plan Part I and II, project updates, notification of upcoming meetings and field audits, and collects location-based comments.

Task 3. Existing Conditions Assessment with Identification of High Priority Focus Areas

As noted earlier, a substantial amount of work has been done by Caltrans District 8 regarding active transportation needs. Some of these are also related to transit stops. Now with SB 960 requirements as a frame of reference, the next steps can be taken to translate the assessment of needs into action.

Task 1 will take everything that has been accomplished by District 8 thus far, particularly the prioritized needs from the ATP StoryMap, and ask the next logical question:

“What are the physical conditions on these segments of state highway and what is their potential for improvement?”

Task 1 will build on the needs identified in District 8’s ATP and other relevant plans to develop a more thorough inventory that includes an assessment of both active transportation and transit mobility problems that can potentially be addressed. Existing conditions of all sites will be documented. Specific strategies and opportunities to address those problems will then be developed in Task 2.

It is believed that the best use of the funds from this Caltrans grant will be to focus on specific sections of highway that have some combination of both the greatest need and the greatest opportunity for improvement. The proposed approach to Task 1 is as follows:

- Conduct a screening process to identify highway segment “focus areas.” These will be the state highway segments with some combination of the greatest need and greatest opportunity for improvement. By focusing on these segments Caltrans staff will be in the best position to make recommendations for funding, whether that be in the SHOPP or in a collaborative funding arrangement with SBCTA and/or local jurisdictions. While the focus areas would be identified as part of the process, to illustrate this concept, sample segments might include:
 - U.S. 395 from I-15 to Adelanto. The question here will be whether and how to accommodate north-south bicycle/pedestrian movement in the state right-of-way or whether to collaborate with the cities to focus on a contiguous parallel route.
 - SR 18 in the City of Big Bear Lake. This is the biggest concentration of bike/ped activity in the mountains and has unique needs related to tourism and recreation.
 - SR 62 in the commercial areas of Yucca Valley and Twentynine Palms. This is another site with significant recreational activity, but with a growing commercial base, made more complicated by through traffic, to include increasing truck activity. Active transportation facilities are discontinuous or non-existent.
 - SR 18 segments in the commercial areas of Victorville and Apple Valley.
 - I-15 segment in Victorville where congestion prevents Victor Valley Transit Authority from providing reliable service during peak hours.
- For each “focus area” provide mapping and data that will allow for specific mobility problems and improvement opportunities to be identified. It is here that the public and agency outreach will be focused (see Task 3). The problems and opportunities will be “workshopped” in that task to arrive at realistic concepts for incorporation of complete street features. SBCTA will collaborate with Caltrans to refine this approach as needed.
- For each focus area, prepare a brief statement of purpose and need as well as planning-level schematics of potential alignments of active transportation facilities (both within and outside Caltrans ROW, as appropriate). These are candidate improvements, not final recommendations, which can be vetted and refined based on the stakeholder and public outreach.
- Based on assessment, input from stakeholders, and public outreach, prepare a StoryMap showing focus area assessments and plans.

Task Deliverables
<ul style="list-style-type: none"> • Review of all relevant existing documentation, • Assessment of existing conditions, • Identification of focus areas, • Mapping and data that can be used to identify mobility problems and improvement opportunities, • Brief statement of purpose and need and preparation of planning-level schematics, and • StoryMap identifying assessment of existing deficiencies, identification of focus areas, and draft plans for improvement.

Task 4. SB 960 Metrics and Analysis

Solutions for some of the identified challenges are already included in funding programs. For example, the solution for transit efficiency and mobility on the I-10 and I-15 will be accommodated through free access for buses in high-occupancy toll lanes (HOT) lanes, providing for more reliable transit travel times. The first segment of the SCAG HOT lane (or “managed lane”) system on I-10 was completed in 2024 from the Los Angeles County line to I-15. The I-10 HOT lanes will also be free for 3+ vanpools and carpools.

A new segment of HOT lanes on I-15 between the Riverside County line and SR 210 are currently under construction, also providing for improved transit reliability and discounts for vanpools and 3+ carpools. I-15 in the Cajon Pass is also planned for HOT lanes that will be beneficial for transit reliability. But in the meantime, the Pass is a source of significant congestion and delays for all vehicles, including transit and HOVs. Therefore, a low-cost solution such as bus-on-shoulder will be examined for potential operational benefits as part of the SB 960, recognizing that the long-term solution is to complete the HOT lanes through the Cajon Pass as planned in the SCAG managed lane network.

Arterial state highways represent a different environment and more opportunity for complete street elements. Buses, cyclists, and pedestrians use these roads on a regular basis, and there are known deficiencies, as previously discussed. There are also opportunities for transit priority at signalized intersections as well as for street-crossing improvements and longitudinal improvements that benefit cyclists and pedestrians. To the extent possible, the benefits of the proposed improvements will be quantified. Metrics for each identified location within a focus area could include:

- Existing conditions from Task 2 (e.g. speeds of transit and regular traffic, collision history, traffic volumes, seasonal variations in volume and congestion, etc.)
- Estimates of potential improvement in metrics, such as transit speeds and use of collision reduction factors (CRFs) to estimate safety benefit based on improvement type.
- Cost estimates and potential project development schedule for improvements
- Assessment of funding potential through local revenue streams, competitive grant programs, and inclusion in the SHOPP.

Key targets will then be identified and divided into 4-year phases for the following 12-years with clear, measurable accomplishments, goals, objectives, cost estimates, and performance metrics.

SBCTA will work with Caltrans District 8 throughout the duration of this task to formulate improvements, evaluate potential project development timelines, identify funding opportunities, and attempt to fit improvements into programming cycles. SBCTA will also ensure that the public is provided ample opportunity for input, and that the public facing project dashboard is kept up to date.

Task Deliverables
<ul style="list-style-type: none">• Technical memorandum describing specific improvements for each focus area, potential project development timelines, funding opportunities, and identification of potential programming cycles for state and other funding,• List of key project development targets divided into 4-year phases for the following 12-years with measurable accomplishments, goals, objectives, cost estimates, and performance measures, and• StoryMap with project metrics and key targets with an easy-to-understand update tracking dashboard.

Task 5. Draft and Final Plan

A 360° for 960 Draft Report and Implementation Plan will be delivered in a StoryMap e-Plan format. It will document recommendations for how to address active transportation and transit deficiencies on the state highway system in San Bernardino County and identify candidate projects for incorporation into the SHOPP or funded through a collaboration with SBCTA and its member agencies. The report will provide an overview of the project and organize sections by focus area so that Caltrans District 8 can easily communicate the recommendations to management, local agencies, and the public, as well as provide input to subsequent programming documents. The draft e-Plan will be presented to SBCTA technical and policy committees and provide for a 45-day comment period, after which the final plan will be prepared.

Task Deliverables
<ul style="list-style-type: none">• Draft StoryMap e-Plan,• List of public comments with responses, and• Recommended next steps.

Task 6. Board Review/Approval

After all comments and revisions have been completed, the draft e-Plan and recommended next step will be presented to the SBCTA General Policy Committee before being placed on the Board of Director consent agenda. This will provide elected officials in San Bernardino County an opportunity to make any additional revisions needed before final submission to Caltrans.

Task Deliverables
<ul style="list-style-type: none">• Final StoryMap e-Plan that incorporates relevant public and agency comments,• Final Plan (published) that includes a summary of the next steps towards implementation, credits FHWA, FTA, and Caltrans on the cover or title page as appropriate, submitted to Caltrans in an ADA accessible electronic copy, and• Board agenda, presentation materials, meeting minutes with Board acceptance/approval.

 - 11.5.1 Advise CONSULTANT in writing within thirty (30) calendar days after receipt of CONSULTANT's letter that the Technical Direction is or is not within the scope of this Contract.

ARTICLE 12. CHANGES

- 12.1 The Work shall be subject to changes by additions, deletions, or revisions made by SBCTA. CONSULTANT will be advised of any such changes by written notification from SBCTA describing the change. - 17.3 Except as reasonably necessary for the performance of the Work, CONSULTANT agrees that it, its employees, agents and subconsultants will hold in confidence and not divulge to third parties, without prior written consent of SBCTA, any information obtained by CONSULTANT from or through SBCTA unless (a) the information was known to CONSULTANT prior to obtaining same from SBCTA, or (b) the information was at the time of disclosure to CONSULTANT, or thereafter becomes, part of the public domain, but not as a result of an unauthorized disclosure by CONSULTANT or its employees, agents, or subconsultants; or (c) the information was obtained by CONSULTANT from a third party who did not receive the same, directly or indirectly, from SBCTA and who had, to CONSULTANT's knowledge and belief, the right to disclose the same. Any materials and information referred to in this Article which are produced by CONSULTANT shall remain confidential until released in writing by SBCTA, except to the extent such materials and information become subject to disclosure by SBCTA under the California Public Records Act or other law, or otherwise become public information through no fault of CONSULTANT, or its employees or agents. - 17.6 CONSULTANT, its employees, agents and subconsultants shall be required to comply with SBCTA's Confidentiality Policy; anyone who may have access to Personally Identifiable Information ("PII") and/or Sensitive Security Information ("SSI") will be required to execute a Confidentiality Agreement.

ARTICLE 18. TERMINATION

- 18.1 Termination for Convenience - SBCTA shall have the right at any time, with or without cause, to terminate further performance of Work by giving thirty (30) calendar days' written notice to CONSULTANT specifying the date of termination. On the date of such termination stated in said notice, CONSULTANT shall promptly discontinue performance of Work and shall preserve Work in progress and completed Work, pending SBCTA's instruction, and shall turn over such Work in accordance with SBCTA's instructions.
 - 18.1.1 CONSULTANT shall deliver to SBCTA all deliverables prepared by CONSULTANT or its subconsultants as well as any materials furnished to CONSULTANT by SBCTA. Upon such delivery, CONSULTANT may then invoice SBCTA for payment in accordance with the terms herein.
 - 18.1.2 If CONSULTANT has fully and completely performed all obligations under this Contract up to the date of termination, CONSULTANT shall be entitled to receive from SBCTA as complete and full settlement for such termination a pro rata share of the Contract cost based upon the percentage of all contracted Work satisfactorily executed to the date of termination.
 - 18.1.3 CONSULTANT shall be entitled to receive the actual costs incurred by CONSULTANT to return CONSULTANT's tools and equipment, if any, to it or its suppliers' premises, or to turn over Work in progress in accordance with SBCTA's instructions plus the actual cost necessarily incurred in effecting the termination.
- 18.2 Termination for Cause - In the event CONSULTANT shall file a petition in bankruptcy court, or shall make a general assignment for the benefit of its creditors, or if a petition in bankruptcy court shall be filed against CONSULTANT, or a receiver shall be appointed on account of its insolvency, or if CONSULTANT shall default in the performance of any express obligation to be performed by it under this Contract and shall fail to immediately correct (or if immediate correction is not possible, shall fail to commence and diligently continue action to correct) such default within ten (10) calendar days following written notice, SBCTA may, without

prejudice to any other rights or remedies SBCTA may have, and in compliance with applicable Bankruptcy Laws: (a) hold in abeyance further payments to CONSULTANT; (b) stop any Work of CONSULTANT or its subconsultants related to such failure until such failure is remedied; and/or (c) terminate this Contract by written notice to CONSULTANT specifying the date of termination. In the event of such termination by SBCTA, SBCTA may take possession of the deliverables and finished Work by whatever method SBCTA may deem expedient. A waiver by SBCTA of one default of CONSULTANT shall not be considered to be a waiver of any subsequent default of CONSULTANT, of the same or any other provision, nor be deemed to waive, amend, or modify any term of this Contract.

18.2.1 CONSULTANT shall deliver to SBCTA all finished and unfinished deliverables under this Contract prepared by CONSULTANT or its subconsultants or furnished to CONSULTANT by SBCTA within ten (10) working days of said notice.

18.3 All claims for compensation or reimbursement of costs under any of the foregoing provisions shall be supported by documentation submitted to SBCTA, satisfactory in form and content to SBCTA and verified by SBCTA. In no event shall CONSULTANT be entitled to any payment for prospective profits or any damages because of such termination.

ARTICLE 19. STOP WORK ORDER

Upon failure of CONSULTANT or its subconsultants to comply with any of the requirements of this Contract, SBCTA shall have the right to stop any or all Work affected by such failure until such failure is remedied or to terminate this Contract in accordance with section "Termination" above.

ARTICLE 20. CLAIMS

SBCTA shall not be bound to any adjustments in the Contract amount or schedule unless expressly agreed to by SBCTA in writing. SBCTA shall not be liable to CONSULTANT for any claim asserted by CONSULTANT after final payment has been made under this Contract.

ARTICLE 21. INSURANCE

21.1 Prior to commencing the Work, subject to the provisions of Article 21.2 "General Provisions", and at all times during the performance of the Work and for such additional periods as required herein, CONSULTANT and all sub-consultants of every tier performing any Work under this contract shall, at CONSULTANT's and sub-consultant's sole expense, procure and maintain broad form insurance coverage at least as broad as the following minimum requirements specified below:

All subconsultants of any tier performing any portion of the Work for CONSULTANT shall also obtain and maintain the same insurance coverage as specified in this subparagraph, with a waiver of subrogation in favor of CONSULTANT and all parties named as Indemnitees below. All subconsultants' and sub-subconsultants' deductibles or self-insured retentions must be acceptable to SBCTA.

21.1.4 Umbrella/Excess CGL. The policy must include the following:

- If the CONSULTANT elects to include an umbrella or excess policy to cover any of the total limits required beyond the primary commercial general liability policy limits and/or the primary commercial automobile liability policy limits, then the policy must include the following:
 - The umbrella or excess policy shall follow form over the CONSULTANT's primary general liability coverage and shall provide a separate aggregate limit for products and completed operations coverage.
 - The umbrella or excess policy shall not contain any restrictions or exclusions beyond what is contained in the primary policy.
 - The umbrella or excess policy shall contain a clause stating that it takes effect (drops down) in the event the primary limits are impaired or exhausted.
 - The umbrella or excess policy must also extend coverage over the automobile policy if it is to be used in combination with the primary automobile policy to meet the total insurance requirement limits.

There shall be no statement limiting the coverage provided to the parties listed as additionally insureds or as indemnitees below.

21.1.5 Commercial Auto. The policy must include the following:

- A total limit of liability of not less than **\$1,000,000** each accident. This total limits of liability may be met by combining the limits of the primary auto policy with an umbrella or excess policy in accordance with subparagraph 4 (Umbrella/Excess CGL) of Section A of this Article.
- Such insurance shall cover liability arising out of any vehicle, including owned, hired, leased, borrowed and non-owned vehicles assigned to or used in performance of the CONSULTANT services.
- Combined Bodily Injury and Property Damage Liability insurance. The commercial automobile liability insurance shall be written on the most recent edition of ISO Form CA 00 01 or equivalent acceptable to SBCTA.

21.1.6 Pollution Liability. Intentionally Omitted.

21.1.7 Technology Professional Liability Errors and Omissions Insurance. Shall be appropriate to the Consultant's profession and work hereunder, with limits not less than \$1,000,000 per occurrence. Coverage shall be sufficiently broad to respond to the duties and obligations as is undertaken by the Consultant in this agreement and shall include, but not be limited to, claims involving infringement of intellectual property, copyright, trademark, invasion of privacy violations, information theft, release of private information, extortion and network security. The policy shall provide coverage for breach response costs as well as regulatory fines and penalties as well as credit monitoring expenses with limits sufficient to respond to these obligations.

The Policy shall include, or be endorsed to include, property damage liability coverage for damage to, alteration of, loss of, or destruction of electronic data and/or information "property" of SBCTA in the care, custody, or control of the CONSULTANT. If not covered under the CONSULTANT's liability policy, such "property" coverage of SBCTA may be endorsed onto the CONSULTANT's Cyber Liability Policy as covered property as follows:

Cyber Liability coverage in an amount sufficient to cover the full replacement value of damage to, alteration of, loss of, or destruction of electronic data and/or information "property" of SBCTA that will be in the care, custody, or control of CONSULTANT.

21.1.8 Railroad Protective Liability. Intentionally Omitted.

21.2. General Provisions

21.2.1 Qualifications of Insurance Carriers. If policies are written by insurance carriers authorized and admitted to do business in the state of California, then the insurance carriers must have a current A.M. Best rating of A-VIII or better and if policies are written by insurance carriers that are non- admitted but authorized to conduct business in the state of California, then they must meet the current A.M. Best rating of A-X or better, unless otherwise approved in writing by SBCTA.

21.2.2 Additional Insured Coverage. All policies, except those for Workers' Compensation and Professional Liability insurance, shall be endorsed by ISO Form CG 20 10 11 85, or if not available, then ISO Form CG 20 38, to name San Bernardino County Transportation Authority, California Department of Transportation (Caltrans), and their officers, directors, members, employees, and agents, as additional insureds ("Additional Insureds"). With respect to general liability arising out of or connected with work or operations performed by or on behalf of the CONSULTANT under this Contract, coverage for such Additional Insureds shall not extend to liability to the extent prohibited by section 11580.04 of the Insurance Code. The additional insured endorsements shall not limit the scope of coverage for SBCTA to vicarious liability, but shall allow coverage for SBCTA to the full extent provided by the policy.

21.2.3 Proof of Coverage. Evidence of insurance in a form acceptable to SBCTA, including declarations pages of each policy, certificates of insurance and the required additional insured endorsements, shall be provided to SBCTA's Procurement Analyst prior to issuance of the NTP or prior to commencing any Work, as SBCTA specifies.

Certificate(s) of insurance, as evidence of the required insurance shall: be executed by a duly authorized representative of each insurer; show compliance with the insurance requirements set forth in this Article; set forth deductible amounts applicable to each policy; list all exclusions which are added by endorsement to each policy; and also include the Contract Number and the SBCTA Project Manager's name on the face of the certificate. If requested in writing by SBCTA, CONSULTANT shall submit complete copies of all required insurance policies within ten (10) business days of a written request by SBCTA.

- 21.2.4 Deductibles and Self-Insured Retention. Regardless of the allowance of exclusions or deductibles by SBCTA, CONSULTANT shall be responsible for any deductible or self-insured retention (SIR) amount and shall warrant that the coverage provided to SBCTA is consistent with the requirements of this Article. CONSULTANT will pay, and shall require its sub-consultants to pay, all deductibles, co-pay obligations, premiums and any other sums due under the insurance required in this Article. Any deductibles or self-insured retentions must be declared to and approved in writing by SBCTA. Without SBCTA's expressed written approval no deductibles or SIR will be allowed. At the option of SBCTA, if the deductible or SIR is approved and it is greater than \$25,000 or one (1) percent of the amount of coverage required under this Contract, whichever is less, the CONSULTANT shall guarantee that either: (1) the insurer shall reduce or eliminate such deductibles or self-insured retentions as respects to SBCTA, its directors, officials, officers, employees and agents; or, (2) the CONSULTANT shall procure a bond guaranteeing the amount of the deductible or self-insured retention. SBCTA shall have the right to review any and all financial records that SBCTA, at its sole discretion, deems necessary to approve any deductible or SIR. SBCTA will have the right, but not the obligation, to pay any deductible or SIR due under any insurance policy. If SBCTA pays any sums due under any insurance required above, SBCTA may withhold said sums from any amounts due to CONSULTANT. The CONSULTANT's policies will neither obligate nor prohibit SBCTA or any other Additional Insured, from paying any portion of any CONSULTANT's deductible or SIR.
- 21.2.5 CONSULTANT's and Subconsultants' Insurance will be Primary. All policies required to be maintained by the CONSULTANT or any subconsultant, with the exception of Professional Liability and Worker's Compensation shall be endorsed, with a form at least as broad as ISO Form CG 20 01 04 13, to be primary coverage, and any coverage carried by any of the Additional Insureds shall be excess and non-contributory. Further, none of CONSULTANT's or subconsultants' pollution, automobile, general liability or other liability policies (primary or excess) will contain any cross-liability exclusion barring coverage for claims by an additional insured against a named insured.
- 21.2.6 Waiver of Subrogation Rights. To the fullest extent permitted by law, CONSULTANT hereby waives all rights of recovery under subrogation against the Additional Insureds named herein, and any other consultant, subconsultant or sub-subconsultant performing work or rendering services on behalf of SBCTA in connection with the planning, development and construction of the Project. To the fullest extent permitted

by law, CONSULTANT shall require similar written express waivers and insurance clauses from each of its subconsultants of every tier. CONSULTANT shall require all of the policies and coverages required in this Article to waive all rights of subrogation against the Additional Insureds (ISO Form CG 24 04 05 09). Such insurance and coverages provided shall not prohibit CONSULTANT from waiving the right of subrogation prior to a loss or claim.

21.2.7 Cancellation. If any insurance company elects to cancel or non-renew coverage for any reason, CONSULTANT will provide SBCTA thirty (30) days' prior written notice of such cancellation or nonrenewal. If the policy is cancelled for nonpayment of premium, CONSULTANT will provide SBCTA ten (10) days' prior written notice. In any event, CONSULTANT will provide SBCTA with a copy of any notice of termination or notice of any other change to any insurance coverage required herein which CONSULTANT receives within one business day after CONSULTANT receives it by submitting it to SBCTA at insurance@gosbcta.com, to the attention of SBCTA's Procurement Analyst, and by depositing a copy of the notice in the U.S. Mail in accordance with the notice provisions of this Contract.

21.2.8 Non-Limitation of Insurance Requirements. The insurance coverages and limits required under this Contract are minimum requirements and are not intended to limit the CONSULTANT's indemnification obligations under the Contract, nor do the indemnity obligations limit the rights of the Indemnified Parties to the coverage afforded by their insured status. To the extent required by Law in connection with Work to be performed, the CONSULTANT shall obtain and maintain, or cause to be obtained and maintained, in addition to the insurance coverage expressly required under this Contract, such other insurance policies for such amounts, for such periods of time and subject to such terms, as required by Law and any other agreements with which the CONSULTANT is required to comply, including any Third-Party Agreements. Liability insurance coverage will not be limited to the specific location designated as the Site, except that if the CONSULTANT arranges project-specific general liability, excess liability, or workers' compensation coverage, limitations of coverage to the Site will be permitted subject to SBCTA approval and use of the broadest available site-specific endorsements. No liability policy will contain any provision or definition that would serve to eliminate so-called "third-party-over action" claims, including any exclusion for bodily injury to an employee of the insured or of any Subcontractor. The CONSULTANT acknowledges and will at all times comply with the provisions of Labor Code Section 3700 which require every employer in the State to be insured against liability for workers' compensation, or to undertake self-insurance in accordance with the provisions of that code.

21.2.9 Enforcement. SBCTA may take any steps as are necessary to assure CONSULTANT's compliance with its insurance obligations as identified within this Article. Failure to continuously maintain insurance coverage as provided herein is a material breach of contract. In the event the CONSULTANT fails to obtain or maintain any insurance coverage required, SBCTA may, but is not required to, secure any coverage SBCTA deems necessary to fill the gap caused by the lapse in CONSULTANT's coverage and

charge the expense to the CONSULTANT or withhold such expense from amounts owed CONSULTANT, or terminate this Contract. The insurance required or provided shall in no way limit or relieve CONSULTANT of its duties and responsibility under the Contract, including but not limited to obligation to indemnify, defend and hold harmless the Indemnitees named below. Insurance coverage in the minimum amounts set forth herein shall not be construed to relieve CONSULTANT for liability in excess of such coverage, nor shall it preclude SBCTA from taking other actions as available to it under any other provision of the Contract or law. Nothing contained herein shall relieve CONSULTANT, or any subconsultant of any tier of their obligations to exercise due care in the performance of their duties in connection with the Work, and to complete the Work in strict compliance with the Contract.

- 21.2.10 No Waiver. Failure of SBCTA to enforce in a timely manner any of the provisions of this Article shall not act as a waiver to enforcement of any of these provisions at a later date.
- 21.2.11 Project Specific Insurance. All insurance coverage required to be provided by CONSULTANT, with the exception of automobile liability and worker's compensation, shall apply specifically and exclusively for the Project and extend to all aspects of the Work, with coverage limits dedicated solely to the Project. Use of other insurance programs is acceptable, provided that coverage under such programs provides dedicated Project-specific limits and identified premiums and meets all requirements described in contract.
- 21.2.12 No Representations or Warranties. SBCTA makes no representation or warranty that the coverage, limits of liability, or other terms specified for the insurance policies required under this contract are adequate to protect the CONSULTANT against its undertakings under this Contract or its liability to any third party, nor will they preclude SBCTA from taking any actions as are available to it under this Contract or otherwise at law.
- 21.2.13 Review of Coverage. SBCTA may at any time review the coverage, form, and amount of insurance required under this contract, and may require the CONSULTANT to make changes in such insurance reasonably sufficient in coverage, form, and amount to provide adequate protection against the kind and extent of risk that exists at that time. SBCTA may change the insurance coverages and limits required under this contract by notice to the CONSULTANT, whereupon the CONSULTANT will, within sixty (60) days of such notice date, procure the additional and/or modified insurance coverages. Upon such change any additional cost (at actual cost) from such change will be paid by SBCTA and any reduction in cost will reduce the Contract Price pursuant to a Contract amendment.
- 21.2.14 Subconsultant Insurance. Insurance required of the CONSULTANT shall be also provided by subconsultants or by CONSULTANT on behalf of all subconsultants to cover their services performed under this Contract. CONSULTANT may reduce types and the amounts of insurance limits provided by subconsultant(s) to be proportionate to the amount of the subconsultant's contract and the level of liability exposure for the specific type of work performed by the subconsultant. CONSULTANT shall be held

responsible for all modifications, deviations, or omissions in these insurance requirements as they apply to subconsultant.

21.2.15 Higher limits. If CONSULTANT maintains higher limits than the minimums shown above, SBCTA shall be entitled to coverage for the higher limits maintained by CONSULTANT. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to SBCTA.

21.2.16 Special Risks or Circumstances. SBCTA reserves the right to modify any or all of the above insurance requirements, including limits, based on the nature of the risk, prior experience, insurer, coverage, or other special circumstances.

ARTICLE 22. INDEMNITY

22.1 To the extent, but only to the extent, that CONSULTANT's Work falls within the scope of Civil Code Section 2782.8, the following indemnification is applicable:

CONSULTANT shall indemnify and defend (with legal counsel reasonably approved by SBCTA) SBCTA, the San Bernardino Council of Governments ("SBCOG"), SBCOG's Entities (see Exhibit C), Caltrans, and their authorized officers, employees, agents and volunteers (collectively "Indemnitees"), from any and all losses, damages, liability, actions, and/or costs for claims that arise out of, pertain to, or are related to the negligence, recklessness, or willful misconduct of the professional to the maximum extent permitted by Civil Code Section 2782.8.

22.2 For all other Work and obligations under this Contract, CONSULTANT agrees to indemnify, defend (with legal counsel reasonably approved by SBCTA) and hold harmless SBCTA, SBCOG, SBCOG's Entities (see Exhibit C), Caltrans, and their authorized officers, employees, agents and volunteers ("Indemnitees"), from any and all claims, actions, losses, damages and/or liability (Claims) arising out of this Contract from any cause whatsoever, including acts, errors, or omissions of any person and for any costs or expenses incurred by any Indemnatee(s) on account of any claim, except where such indemnification is prohibited by law. This indemnification provision shall apply regardless of the existence or degree of fault of Indemnitees. CONSULTANT's indemnification obligation applies to Indemnitees' "active" as well as "passive" negligence, but does not apply to the "sole negligence" or "willful misconduct," within the meaning of Civil Code section 2782, of any Indemnatee.

ARTICLE 23. ERRORS AND OMISSIONS

CONSULTANT shall be responsible for the professional quality, technical accuracy, and coordination of all Work required under this Contract. CONSULTANT shall be liable for SBCTA's costs resulting from errors or deficiencies in Work furnished under this Contract, including, but not limited to, any fines, penalties, damages, and costs required because of an error or deficiency in the Work provided by CONSULTANT under this Contract.

ARTICLE 24. OWNERSHIP OF DOCUMENTS

All deliverables, including but not limited to, drawings, reports, worksheets, and other data developed by CONSULTANT under this Contract shall become the sole property of SBCTA when prepared, whether delivered to SBCTA or not.

ARTICLE 25. SUBCONTRACTS

- 25.1 CONSULTANT shall not subcontract performance of all or any portion of Work under this Contract, except to those subconsultants listed in CONSULTANT's proposal, without first notifying SBCTA in writing of the intended subcontracting and obtaining SBCTA's written approval of the subcontracting and the subconsultant. The definition of subconsultant and the requirements for subconsultants hereunder shall include all subcontracts at any tier.
- 25.2 CONSULTANT agrees that any and all subconsultants of CONSULTANT performing Work under this Contract will comply with the terms and conditions of this Contract applicable to the portion of Work performed by them. CONSULTANT shall incorporate all applicable provisions of this Contract into their subcontracts regardless of the tier. If requested by SBCTA, CONSULTANT shall furnish SBCTA a copy of the proposed subcontract for SBCTA's approval of the terms and conditions thereof and shall not execute such subcontract until SBCTA has approved such terms and conditions. SBCTA's approval shall not be unreasonably withheld.
