

Grant opportunities that may be of interest to SBCOG begin on the next page.

Table 1 lists new grant opportunities since the last grant table.

Table 2 includes open grant opportunities. The “Success Rate” for each opportunity (if known) is indicated in **blue** in the “Notes” column. This is based on the number of applications awarded relative to the number submitted. The table also includes a link to past grant awards, if available. We also included the anticipated level of difficulty for developing each grant proposal. A key is provided below for reference:

Key: Level of Difficulty (LOD)	
Simple	A simple level of difficulty indicates an application that may take 8 hours or less to develop and can likely be accomplished “in-house” with minimal effort/allocation of internal resources.
Medium	A medium level of difficulty indicates an application process that will take a more substantial allocation of internal resources to accomplish and might possibly require outside assistance (20-70 hours to develop application).
Complex	A complex level of difficulty indicates a VERY competitive opportunity, with a small success rate and intensive grant development and positioning.

TABLE 1 New Grant Opportunities			
Deadline	Name of Grant	Grant Number*	Page Number
09/29/26	Desalination and Water Purification Research Program Research Projects	5	9
09/30/26	Community Resilience Centers Program Implementation Grants	6	10
09/30/26 (Quarterly)	Wildfire Disaster Relief and Recovery in Los Angeles and Ventura Counties	9	14
10/02/26	onX Adventure Forever Grants	11	16

4	09/28/26 Bus Safety Research	Bus Safety, Accessibility, and Innovation Research Program. To provide competitive cooperative agreements for research, development, and prototyping of innovative bus designs and technologies that improve operator and passenger safety, protect vulnerable road users, and increase accessibility for passengers with physical and cognitive disabilities. Projects are expected to produce prototypes suitable for retrofit on existing buses and installation on new buses. Eligible Project Types and Activities: • Eligible projects combine research and design work with production of a prototype that can be retrofitted on existing buses or installed in new buses. Work may include: • Bus operator safety and security systems, operator compartments, protective barriers, emergency egress, and operator health or ergonomic improvements. • Passenger safety systems and improvements for boarding, alighting, seating, mobility-device securement, fare payment, stop requests, and rider information. • Visibility, mirrors, camera or monitor systems, advanced driver-assistance systems, and technologies protecting	U.S. Department of Transportation (DOT) Administered by the <i>Federal Transit Administration (FTA), Office of Research, Demonstration, and Innovation</i>	Federal	Available funding: \$10 million No minimum or maximum grant award amount. Projects may be funded below the amount requested, and applicants must address scalability at reduced funding levels.	20%	Website Link to Prior Awards: Not Available Success Rate: Not Available LOD: Medium to Complex

5	09/29/26 Water Treatment Research	NEW: Desalination and Water Purification Research Program (DWPR) Research Projects. Funds innovative laboratory- and pilot-scale research to increase water supplies by reducing the costs, energy requirements, environmental impacts, and other barriers to treating impaired or unusable water for beneficial uses. Research should advance water-treatment technologies with broad applicability and potential for commercialization. Eligible Project Types: Applicants can apply for two categories of projects under this NOFO: • Laboratory-Scale Projects: Typically bench-scale research using small flow rates to determine the viability of novel processes, materials, or process modifications. May also include modeling, decision-support tools, literature reviews, and technology reviews addressing objectives identified in the Program Goals section. • Pilot-Scale Projects: Testing of a novel technology or process at a scale sufficient to determine the practicality of implementation.	U.S. Bureau of Reclamation (BOR) U.S. Department of the Interior	Federal	\$800,000 Laboratory-Scale Projects: up to \$300,000 in Federal funds Pilot-Scale Projects: up to \$800,000 in Federal funds Award minimum: \$100,000	No	Website Link to Prior Awards: Not Available

6	9/30/26 Public Safety / Community Resilience	NEW: Community Resilience Centers Program. To fund Planning and Implementation Grants that advance the development of neighborhood resilience centers that mitigate the public health impacts of extreme heat and other emergency situations exacerbated by climate change. It also supports year-round community services and programming. Eligible Project Types: • Senior and youth centers • Park and recreation sites • Libraries • Health clinics • Hospitals • Schools • Town halls • Food banks • Homeless shelters • Childcare facilities • Community centers • Community nonprofit facilities providing essential services • Places of worship • Fairgrounds	California Strategic Growth Council (SGC)	State	\$10,000,000 Implementation Grants Max: \$10 million Planning Grants Max: \$500,000	Not Required	Website Success Rate: Not Available

7	09/30/26 Climate Planning	Transformative Climate Communities (TCC) Planning Grant Program - Round 6. To support planning activities that prepare low-income, disadvantaged, and Tribal communities for future implementation of programs aligned with TCC Program Objectives. The TCC Program funds community-led projects that reduce greenhouse gas (GHG) emissions while improving public health, economic opportunity, and environmental conditions. Eligible Project Types and Activities: Planning activities that prepare communities for future funding opportunities aligned with TCC Program Objectives, such as: • Building internal and partner capacity to support collaborative partnerships • Evaluating, updating, and streamlining policies and codes • Conducting fiscal analyses to assess long-term service costs • Preparing climate action and climate adaptation plans • Conducting inclusive community engagement • Preparing for future funding opportunities • Defining Health Equity and establishing related goals for the Project Area • Identifying and preparing project sites for future community-serving uses	California Strategic Growth Council (SGC)	State	\$300,000	Not Required	Website Link to Prior Awards: Link Success Rate: Not Available LOD: Medium

8	09/30/26 Climate Pre-Development Activities	Transformative Climate Communities (TCC) Project Development Grant Program - Round 6. To fund pre-development activities that advance community climate and resilience goals and prepare projects that align with TCC Program Objectives for future implementation funding. These grants are intended for communities that have completed prior planning and identified priority projects but require additional development to advance those projects toward implementation. This grant addresses the gap between Planning Grants and Implementation Grants. Eligible Project Types and Activities: • All Planning Grant eligible activities (community engagement, plan development, policy/code evaluation, capacity building) • Feasibility studies • Market analysis • Environmental assessments • Land and project management surveys • Remediation • Site and development plans • Project designs • Permitting • Financial planning (e.g., preliminary budget and construction financing) • Infrastructure pre-development and development of long-term operations	California Strategic Growth Council (SGC)	State	\$5 million	Not required	Website Link to Prior Awards: Link Success Rate: Not Available LOD: Medium to Complex

9	09/30/26 Wildfire Mitigation & Recovery	NEW: Wildfire Disaster Relief & Recovery in Los Angeles and Ventura Counties. Supports long-term wildfire relief and recovery efforts and provides resources to organizations serving communities and first responders affected by wildfires in Los Angeles and Ventura counties. Funding supports community recovery, recovery planning and outreach, first-responder training and equipment, and wildfire mitigation activities. Eligible Project Types: Projects must fall within one of the following focus areas: • Community Relief & Recovery • Recovery Planning, Public Education, and/or Community Outreach Campaigns • First Responder Training • Specialized Firefighting Equipment, such as PPE replacement • Vegetation Mitigation & Fuels Reduction	California Fire Foundation	State	TBD Typical awards range from \$25,000 to \$100,000. Requests outside this range are considered on a case-by-case basis.	No	Website Link to Prior Awards: Link Success Rate: Not Available

10	09/30/26 Climate Implementation	Transformative Climate Communities (TCC) Implementation Grant Program - Round 6. To fund neighborhood-level projects that include multiple, coordinated activities that reduce GHG emissions and achieve community benefits. Implementation Grants fund neighborhood-scale applications that include multiple, coordinated projects to reduce greenhouse gas emissions and deliver broader community benefits. These grants support climate resilience projects and infrastructure that respond to community-identified needs in Tribal, disadvantaged, and low-income communities. Eligible Project Types and Activities: Neighborhood-level projects that include multiple, coordinated activities that reduce GHG emissions and achieve community benefits, such as: • Infrastructure: affordable housing, bike lanes, transit services, urban greening • Social programs: supportive services, food distribution, transit pass distribution • Pre-development for construction activities	California Strategic Growth Council (SGC)	State	\$27.5 million	25% - 50% Varies depending on DAC status	Website Link to Prior Awards: Link Success Rate: Not Available LOD: Complex

25	11/13/26 Museums	NEW: Inspire Grants for Small Museums. Supports project-based efforts that build the capacity of small museums to serve their communities through experiential learning and discovery or the management and care of collections. Projects may include educational programs and exhibits, community partnerships, and collections stewardship activities.	Institute of Museum and Library Services (IMLS)	Federal	\$75,000 Small Project: \$5,000–\$25,000 Large Project: \$25,001–\$75,000	Yes Small Project requests of \$5,000–\$25,000: no cost share required. Large Project requests of \$25,001–\$75,000: applicant must provide at least a 1:1 non-federal cost share, equal to or greater than the IMLS request.	Website Link to Prior Awards: Not Available Success Rate: Not Available
26	11/13/26 Museums	NEW: Museums Empowered: Professional Development Opportunities for Museum Staff. Supports projects that use learning and training to generate change and growth within museums by strengthening museum staff in digital technology, evaluation, or organizational management. The program also supports museums developing internal professional-development pathways, including apprenticeships and other alternatives for upskilling early-career staff and creating opportunities for non-traditional entrants to the museum workforce.	Institute of Museum and Library Services (IMLS)	Federal	\$350,000 Minimum request: \$5,000	Yes Applicant must provide non-federal cost share equal to or greater than the IMLS award (a minimum 1:1 match).	Website Link to Prior Awards: Not Available Success Rate: Not Available

28	11/18/26 Transportation Infrastructure	NEW: Local Partnership Program (LPP) – Competitive. Provides competitive SB 1 funding to local and regional transportation agencies supported by voter-approved or imposed transportation taxes, tolls, or fees. Funding supports transportation improvements while directing increased revenue toward the state’s highest transportation needs. Eligible Project Types: LPP Competitive funding may be requested for the Construction phase of eligible capital projects, including: • State highways: Major rehabilitation extending useful life by at least 15 years; capacity projects that improve mobility or congestion; and safety or operational improvements. • Local roads: Major rehabilitation, resurfacing, or reconstruction extending useful life by at least 15 years; new capacity or mobility improvements; and safety or operational improvements. • Transit and rail: Transit facilities and guideways; transit-priority improvements; first-/last-mile connections; zero-emission buses; clean rail cars, locomotives, vans, and other eligible rolling stock; and fixed-route or demand-responsive transit improvements.	California Transportation Commission (CTC)	State	\$25,000,000	Yes. 1:1 match. Exceptions: Applicants whose qualifying voter-approved tax, toll, fee, or imposed fee generates less than \$2,000,000 annually must provide match equal to at least 25% of the requested LPP amount. 35	02/01/27 Waterways & Boating	NEW: Statewide Ramp Repair and Modification Grant Program FY27. Provides funding to public agencies to quickly restore safe and convenient recreational boating access at DBW-funded boat launching facilities affected by unexpected events or changing water conditions. Projects generally repair, restore, widen, or extend existing ramps and related boating-access infrastructure. Eligible Project Types: • Boat-ramp restoration, repair, widening, and low-water extensions; • Parking-area restoration and low-water/second-stage parking; • Restroom, boarding-float, gangway, lighting, slope-protection, accessibility, fish-cleaning, pay-station, signage, wash-down, and staging-area restoration; • Dredging needed to repair or replace an existing ramp; • Restoration of existing solar or wind-power components; and • Engineering plans, specifications and cost estimates; construction inspection; permitting and permit-required mitigation.	California State Parks Administered by the Division of Boating and Waterways (DBW)	State	No minimum or maximum grant award. RR&M awards typically range from \$10,000 to \$750,000, depending on the severity, magnitude, and urgency of the issue and available funding. 49	Ongoing Pet Emergency Planning	AKC Pet Disaster Relief. To provide an AKC Pet Disaster Relief Unit—a stocked mobile trailer and supplies—to support emergency planning and temporary sheltering of displaced pets and service animals during natural or man-made emergencies or disasters. The program is intended to help local Emergency Management prepare for and respond to disasters affecting people and their pets.	American Kennel Club (AKC) Reunite	Private	This is an in-kind grant rather than a cash award. The current typical cost of a Unit is approximately \$22,000	\$12,000 is required by the local AKC club	Website Link to Prior Awards: Not Available Success Rate: Not Available LOD: Simple
50	Ongoing Fire Safety	Brothers Helping Brothers Equipment Grant Request. To provide financial assistance, tools, and equipment to small fire departments and EMS organizations that demonstrate financial need and community risk. Prior awards have supported items such as structural firefighting PPE, SCBA, rescue and extrication tools, thermal imaging cameras, EMS equipment, hose, training equipment, and other operational fire/EMS equipment. Applicant organization must serve a population of fewer than 10,000 people or organization must have less than 30 employees, which a majority is volunteer or paid-per-call personnel.	Brothers Helping Brothers (BHB)	Private	Not stated Previous awards range from several hundred dollars to \$14,000	Not required	Website Link to Prior Awards: LINK Success Rate: Not Available LOD: Simple

63	Ongoing Economic Development	Public Works and Economic Adjustment Assistance (PWEAA) Program. - Public Works (PW): Through the primarily construction-oriented Public Works program, EDA provides catalytic investments to help distressed communities build, design, or engineer critical infrastructure and facilities that will help implement regional development strategies and advance bottom-up economic development goals to promote regional prosperity. - Economic Adjustment Assistance (EAA): Support a wide range of construction and non-construction activities in regions experiencing adverse economic changes that may occur suddenly or over time. Supported activities include construction and non-construction such as sectoral partnerships for workforce training, design and engineering, technical assistance, economic recovery strategies, and capitalization or re-capitalization of Revolving Loan Funds (RLF). EDA utilizes EAA investments to provide resources that help communities experiencing or anticipating economic dislocations to plan and implement specific solutions to leverage their existing regional economic advantages to support economic development and job creation. Strategy Grant: To develop, update, or refine a Comprehensive Economic Development Strategy	U.S. Economic Development Administration	Federal	Public Works: EDA expects awards in the range of \$600,000 to \$5 million EAA: EDA expects awards in the range of \$150,000 to \$2.5 million	Generally, the maximum baseline EDA investment rate (percentage of the total project costs) will be 60 percent, but EDA may fund a higher percentage of total project costs in limited circumstances based on the relative needs of the region. Table 1 (page 9 of the NOFO) below sets forth the maximum allowable investment rate depending on the economic distress of the region.	Website Link to Prior Awards: Here Success Rate: The average size of a Public Works investment has been approximately \$1.4 million. The average size of an EAA investment has been approximately \$650,000. LOD: Complex
