

**San Bernardino Council of Governments
Grant Opportunities and Forecast
October 7, 2026**

*(**NEW!** is noted for grants added in the past 14 days)*

Grant opportunities that may be of interest to SBCOG begin on the next page.

Table 1 includes a list of new grant opportunities since the last grant table.

Table 2 includes open grant opportunities. The “Success Rate” for each opportunity (if known) is indicated in **blue** in the “Notes” column. This is based on the number of applications awarded in relation to the number of applications submitted. The table also includes a link to past grant awards, if available. Additionally, we have included the anticipated level of difficulty to develop each grant proposal. A key is provided below for reference:

Key: Level of Difficulty (LOD)	
Simple	A simple level of difficulty indicates an application that may take 8 hours or less to develop and can likely be accomplished “in-house” with minimal effort/allocation of internal resources.
Medium	A medium level of difficulty indicates an application process that will take a more substantial allocation of internal resources to accomplish and might possibly require outside assistance (20-70 hours to develop application).
Complex	A complex level of difficulty indicates a VERY competitive opportunity, with a small success rate and intensive grant-development and positioning.

TABLE 1 New Grant Opportunities			
Deadline	Name of Grant	Grant Number*	Page Number
10/20/26 Grants.gov 10/27/26 JustGrants	Assisting Neighborhoods and Governments with Enforcement of Laws (ANGEL) Grant Program	14	23

1	10/08/26 Public Safety/ Fire	Firehouse Subs Public Safety Foundation Grant. To improve the lifesaving capabilities of first responders and public safety organizations by providing lifesaving equipment and prevention-education resources that help protect local communities. Eligible Project Types: • Lifesaving equipment for first responders and public safety organizations, including items such as vehicle-extrication tools, AEDs, bunker gear, thermal imaging cameras, automated chest-compression systems, vehicle-stabilization equipment, protective vests, ATVs, fire hoses, radios, and similar emergency-response equipment. • Prevention-education equipment and programs addressing public-safety risks such as fire prevention, CPR, carbon-monoxide poisoning, DUI, and distracted driving. • New equipment requests; refurbished/pre-owned and patent-pending equipment not eligible.	Firehouse Subs Public Safety Foundation	Private	\$40,000 \$15,000-\$25,000 is a guideline rather than a minimum or maximum award range, with \$40,000 being the ceiling. 2	10/09/26 Grants.gov 10/16/26 JustGrants Criminal Justice	BJA FY 2026 Edward Byrne Memorial Justice Assistance Grant (JAG) Program - Local Formula. Provides formula funding to eligible units of local government to address criminal justice needs through personnel, equipment, supplies, contractual support, training, technical assistance, information systems, and other authorized JAG activities. Eligible Project Types JAG funding may support personnel, equipment, supplies, contractual support, training, technical assistance, information systems, and related costs for authorized criminal justice or civil-proceeding activities, including: • Law enforcement • Prosecution and courts • Prevention and education • Corrections and community corrections • Drug treatment and enforcement • Planning, evaluation, and technology improvements • Crime victim and witness programs, other than compensation • Mental health, behavioral-health, crisis-intervention, and related law enforcement or corrections programs • Crisis-intervention court proceedings and initiatives, including mental health, drug, veterans, and extreme-risk-protection-order programs	U.S. Department of Justice (DOJ)	Federal	TBD Each eligible jurisdiction's funding is determined by its FY 2026 JAG formula allocation rather than by a generally available request ceiling. The NOFO reports anticipated awards up to \$4,964,030.	Not required	Website Link to Prior Awards: Not Available Success Rate: Not Available LOD: Not Available

3	10/09/26 Resiliency	Promoting Resilient Operations for Transformative, Efficient, and Cost-Saving Transportation (PROTECT) Competitive Grant Program. To prepare communities for natural hazards and strengthen roads, bridges, transit systems, ports, and passenger rail. Funding supports planning and infrastructure improvements that reduce damage, keep transportation systems operating during emergencies, improve public safety, and lower future repair and rebuilding costs. Eligible Project Types Planning Grants • Resilience and emergency planning • Risk and vulnerability assessments • Evacuation planning • Preliminary design • Transportation data and planning tools Resilience Improvement Grants • Road and bridge improvements • Flood and drainage protection • Slope stabilization • Seismic upgrades • Wildfire protection • Relocation of transportation facilities at risk Community Resilience and Evacuation Route Grants • Evacuation route improvements	U.S. Department of Transportation (DOT)	Federal	N/A Expected awards may range from \$100,000 to \$10 million for Planning Grants and from \$500,000 to \$60 million for other grant categories. These are estimated ranges, not firm limits.	Planning Grants require no match. Other grant categories generally require a 20% match. Reduced or waived match may apply to eligible Tribes, territories, and projects with a qualifying resilience plan.	Website Link to Prior Awards: LINK Success Rate: Not Available LOD: Complex

4	10/09/26 Planning	Sustainable Transportation Planning Grant (STPG) - Sustainable Communities. To fund local and regional multimodal transportation and land use planning projects that further a region's RTP SCS/APS, where applicable; contribute to State greenhouse-gas reduction targets; address the needs of under-resourced communities; and advance Caltrans' mission and grant program objectives. Eligible Project Types: • Active transportation and multimodal planning: bicycle, pedestrian, trail, Complete Streets, Safe Routes, corridor, freight, transit, first/last-mile, and multimodal plans and studies. • Integrated transportation, housing, and land use planning: RTP SCS/APS implementation, transit-oriented development planning, VMT/GHG reduction, accessibility, and coordinated land use and transportation strategies. • Climate, equity, and community planning: climate adaptation planning, transportation-related public health and environmental justice studies, community needs assessments, and planning addressing under-resourced communities.	California Department of Transportation (Caltrans)	State	\$700,000 Minimum request: \$50,000 for projects benefiting under-resourced communities, including Native American Tribal Governments and rural communities. Minimum request: \$100,000 for all other projects.	Minimum 11.47% of total project cost. May be cash, third-party in-kind contributions, or a combination. Native American Tribal Governments are exempt. Federal toll credits, FHWA PL, FTA Section 5303, and Sustainable Communities Formula funds may not be used as match. Any local match committed above the minimum becomes part of the grant agreement.	Website Link to Prior Awards: Not Available Success Rate: Not Available LOD: Medium

		Technical projects: travel-demand and land-use modeling, SB 375/SB 743 and VMT analysis, induced-travel analysis, transportation-demand management and pricing studies, data and performance analysis, zero-emission vehicle/bus planning, charging-network planning, and emerging transportation technologies. City/county primary and sub-applicants must have an adopted Housing Element that HCD has found in substantial compliance with State housing-element law and must have submitted Annual Progress Reports for 2024 and 2025. Eligible Applicants: - MPOs with a sub-applicant; RTPAs; transit agencies; cities and counties; Native American Tribal Governments; and other public transportation planning entities. City and county applicants must meet the Housing Element and Annual Progress Report requirements stated above.

5	10/09/26 Planning	Sustainable Transportation Planning Grant (STPG) - Strategic Partnerships. To fund transportation planning studies in partnership with Caltrans that address regional, interregional, and statewide needs of the State Highway System and assist in achieving the Caltrans Mission and Grant Program Objectives. Eligible Project Types: • Regional, interregional, and statewide mobility/access studies; multimodal corridor plans; corridor performance, preservation, and enhancement studies; and system-investment prioritization. • Freight and goods-movement planning, including sustainable freight, supply-chain resilience, last-mile and curbside freight, agricultural goods movement, and transportation access to borders, ports, airports, intermodal facilities, freight hubs, and recreational sites. • Transportation safety, accessibility/connectivity, rural transportation-system, transportation-demand-management, special-event, state-route relinquishment, statewide/interregional research or modeling, and new-technology studies.	California Department of Transportation (Caltrans)	Federal via State	\$700,000 Minimum request: \$100,000	Applicants must provide a minimum 20% local match using non-federal funds and/or eligible in-kind contributions. MPOs may use Sustainable Communities Formula funds as match when grant objectives align and Caltrans approves.	Website Link to Prior Awards: LINK Success Rate: Not Available LOD: Complex

		- Planning that integrates transportation with economic development or environmental considerations, and studies addressing land-use conflicts involving major transportation corridors. - Planning methods to reduce single-occupancy-vehicle travel and transportation-related GHG emissions through mode shift, demand management, operational efficiency, accessibility, and coordination with future employment and residential land use. Eligible Applicants: - Metropolitan Planning Organizations (MPOs) and Regional Transportation Planning Agencies (RTPAs) with statutory transportation or transit planning authority may apply as primary applicants. Cities and counties may participate as sub-applicants with an eligible MPO or RTPA. Other eligible sub-applicants include transit agencies, Tribes, colleges, community-based organizations, nonprofits, and public entities.

6	10/09/26 Planning	Sustainable Transportation Planning Grant (STPG) - Strategic Partnerships – Transit. To fund multimodal planning studies, with a focus on transit, in partnership with Caltrans, that are of regional, interregional, or statewide significance and assist in achieving the Caltrans Mission and Grant Program Objectives. Eligible Project Types: • Short- and long-range transit plans; transit operational and technical planning studies; statewide or regional transit research and surveys; and strategies to increase transit ridership or optimize system performance. • Rail and multimodal connectivity planning; bicycle and pedestrian connections to transit; Complete Streets and multimodal plans; accessibility and first/last-mile connectivity. • Transit station-area planning, transit-oriented development planning, and strategies supporting sustainable communities through coordinated transportation and land-use planning. • Zero-emission bus fleet planning; transit asset-management and facility-preservation strategies; integration of transit with emerging technologies and shared-mobility services.	California Department of Transportation (Caltrans)	Federal via State	\$700,000 Minimum request: \$75,000 for RTPAs and transit agencies \$100,000 for MPOs	Minimum 11.47% of total project cost using non-federal cash and/or eligible third-party in-kind contributions. Any non-federal source may be used when the proposed grant work is eligible for that funding source. MPOs may use Sustainable Communities Formula funds as match when the objectives align and Caltrans approves.	Website Link to Prior Awards: LINK Success Rate: Not Available LOD: Complex

7	10/13/26 Full Application Resiliency	Extreme Heat and Community Resilience Program Round 2 - Advanced Infrastructure Projects. To protect California communities most vulnerable to the impacts of extreme heat. Advanced Infrastructure Projects fund the implementation of heat-related infrastructure identified through prior planning efforts and determined to be feasible. Eligible Project Types: • Built environment solutions: cool pavements, shading, passive and mechanical cooling, building upgrades, hydration stations, transit shelters, etc. • Nature-based solutions: urban forestry, green spaces, green stormwater infrastructure, etc. All projects must produce two deliverables: (1) a Completed Infrastructure Project, and (2) a Future Implementation Playbook.	California Governor's Office of Land Use and Climate Innovation (LCI)	State	\$4.5 million Minimum: \$3 million	Not required	Website Link to Prior Awards: Link Success Rate: Not Available LOD: Complex

11	10/15/26 Workforce Development	Innovative Water Infrastructure Workforce Development Grant Program. Support innovative workforce-development activities that expand awareness of careers in drinking water, wastewater, and decentralized water systems; connect people to those careers; and strengthen the pool of qualified workers needed to protect public health and operate water infrastructure. Applicants must select one and only one project area: Project Area 1 – Skilled Water-Utility Trades: Support internships, apprenticeships, bridge programs, job training, test preparation, and related participant costs such as stipends, materials, transportation, or childcare. Project Area 2 – Student Education: Provide water-career education and work-based learning for elementary, secondary, or college students, including hands-on learning and connections to employers. Project Area 3 – Regional Workforce Collaboration: Create regional partnerships that address utility recruitment, retention, and workforce shortages, particularly in small, rural, or high-unemployment communities and utilities with many retirement-eligible employees.	U.S. Environmental Protection Agency (EPA)	Federal	\$7,800,000 Project Area 1: Expected awards range from \$1 million to \$7.8 million Project Areas 2–4: Expected awards range from \$250,000 to \$1 million	Not Required	Website Link to Prior Awards: Not Available Success Rate: Not Available LOD: Complex

12	10/15/26 Cycle 29 01/13/27 Cycle 30 Recycling	Tire-Derived Aggregate Grant Program. To promote the use of tire-derived aggregate (TDA) to increase recycling of California-generated waste tires. The Program provides solutions for a variety of engineering challenges. Eligible Project Types • Category 1: Mechanically Stabilized TDA (retaining walls). • Category 2: Low Impact Development (stormwater mitigation). • Category 3: Lightweight fill (slope stabilization, embankment fill, landslide repair, and retaining walls). • Category 4: Vibration mitigation (under rail lines). • Category 5: Landfill application projects (aggregate replacement projects such as leachate and gas collection systems, drainage layers, leachate injection). Eligible Applicants: • California public entities, including cities, and eligible private entities, Tribes, and nonprofit organizations implementing qualifying tire-derived aggregate projects. Applicants must own the project property; one application may include multiple eligible projects. 27	11/18/26 Transportation Infrastructure	Local Partnership Program (LPP) – Competitive. Provides competitive SB 1 funding to local and regional transportation agencies supported by voter-approved or imposed transportation taxes, tolls, or fees. Funding supports transportation improvements while directing increased revenue toward the state’s highest transportation needs. Eligible Project Types LPP Competitive funding may be requested for the Construction phase of eligible capital projects, including: • State highways: Major rehabilitation extending useful life by at least 15 years; capacity projects that improve mobility or congestion; and safety or operational improvements. • Local roads: Major rehabilitation, resurfacing, or reconstruction extending useful life by at least 15 years; new capacity or mobility improvements; and safety or operational improvements. • Transit and rail: Transit facilities and guideways; transit-priority improvements; first-/last-mile connections; zero-emission buses; clean rail cars, locomotives, vans, and other eligible rolling stock; and fixed-route or demand-responsive transit improvements.	California Transportation Commission (CTC)	State	\$25,000,000	1:1 match Exceptions: Applicants whose qualifying voter-approved tax, toll, fee, or imposed fee generates less than \$2,000,000 annually must provide match equal to at least 25% of the requested LPP amount. 29	11/20/26 Freight/ Transportation Infrastructure	Trade Corridor Enhancement Program (TCEP). Funds freight infrastructure improvements on federally designated trade corridors, California's National Highway Freight Network, and other corridors with high freight volumes, including SB 671 priority corridors for zero-emission freight infrastructure. The program supports freight throughput, reliability, and efficiency while advancing statewide freight, environmental, and community goals. Eligible Project Types: • Highway and truck-corridor and freight rail system improvements; • Port enhancements; • Border infrastructure; • Surface transportation, local-road, and connector-road improvements that facilitate goods movement; • Freight infrastructure enabling zero- or near-zero-emission goods movement, including electric charging, hydrogen fueling, port electrification, grid improvements supporting freight operations, and freight rail electrification; • Freight-related advanced technology, including eligible broadband conduit and fiber along strategic corridors;	California Transportation Commission (CTC)	State & Federal	TBD	Regional-share projects require at least 30% match of the funded project phase costs; Caltrans-nominated projects under the 40% statewide share have no match requirement	Website Link to Prior Awards: Not Available Success Rate: Not Available LOD: Complex

49	Continuous basis until the target yield of 170,000 acre-feet per year is fully subscribed Funding available as of 10/06/26 Water	Local Resources Program. For the development of water recycling, groundwater recovery, and seawater desalination supplies that offset an existing demand or prevent a new demand on Metropolitan's imported water deliveries either through direct replacement of imported water or increased regional groundwater production. Strong consideration will be given to projects that are well positioned for construction and timely production of stated project capacities in the near future. Projects with long ramp-up schedules may be addressed in phases. Agency must apply for each phase separately when each phase is poised for timely construction and operation. Expansion of an existing project may be eligible on a case-by-case basis. For an expansion project to be eligible, the Agency must be committed to the expansion to produce water above the existing facility's annual production.	Metropolitan Water District of Southern California	Regional	<u>Option 1:</u> Sliding scale incentives up to \$340/AF over 25 years <u>Option 2:</u> Sliding scale incentives up to \$475/AF over 15 years <u>Option 3:</u> Fixed incentive up to \$305/AF over 25 years See pages 8 – 9 for more details on the Incentive Payment Structure of the Guidelines: Link	Not stated as required	Website Link to Prior Awards: Not Available Success Rate: Not Available LOD: Complex

51	Ongoing Water	Emerging Contaminants (EC) Funding (forgivable loans). To address per- and polyfluoroalkyl substances (PFAS) and other emerging contaminants in drinking water. “Emerging contaminants” include contaminants listed on any of EPA’s Contaminant Candidate Lists (CCL). Eligible projects and activities may include, but are not limited to: • Construction of a new treatment facility or upgrade to an existing treatment facility that addresses EC/PFAS. • Development of a new source (i.e., new/replacement well or intake for a public water system) that addresses an EC/PFAS issue. • Consolidation with another water system that does not have EC/PFAS present or has removal capability. • Infrastructure related to pilot testing for treatment alternatives. • Planning and design for small DACs • Creation of a new community water system to address unsafe drinking water provided by individual (i.e., privately-owned) wells or surface water sources. • Connection of private wells to an existing public water system. Eligible construction projects may include costs for planning and design.	State Water Resources Control Board (SWRCB)	Federal and State	Water systems that serve Disadvantaged Communities (DACs) or systems serving a population under 25,000: No maximum and no expectation of repayment (forgivable loans) Water systems that serve non-DACs with a population over 25,000: \$25 million with no expectation of repayment (forgivable loans)	Water systems that serve Disadvantaged Communities (DACs) or systems serving a population under 25,000: No match Water systems that serve non-DACs with a population over 25,000: 50%	SWRCB: Website EPA: Website Link to Prior Awards: Not Available Success Rate: Not Available LOD: Complex

52	Ongoing Pet Emergency Planning	AKC Pet Disaster Relief. To provide an AKC Pet Disaster Relief Unit—a stocked mobile trailer and supplies—to support emergency planning and temporary sheltering of displaced pets and service animals during natural or man-made emergencies or disasters. The program is intended to help local Emergency Management prepare for and respond to disasters affecting people and their pets.	American Kennel Club (AKC) Reunite	Private	This is an in-kind grant rather than a cash award. The current typical cost of a Unit is approximately \$22,000	\$12,000 is required by the local AKC club	Website Link to Prior Awards: Not Available Success Rate: Not Available LOD: Simple
53	Ongoing Fire Safety	Brothers Helping Brothers Equipment Grant Request. To provide financial assistance, tools, and equipment to small fire departments and EMS organizations that demonstrate financial need and community risk. Prior awards have supported items such as structural firefighting PPE, SCBA, rescue and extrication tools, thermal imaging cameras, EMS equipment, hose, training equipment, and other operational fire/EMS equipment. Applicant organization must serve a population of fewer than 10,000 people or organization must have less than 30 employees, which a majority is volunteer or paid-per-call personnel.	Brothers Helping Brothers (BHB)	Private	Not stated Previous awards range from several hundred dollars to \$14,000	Not required	Website Link to Prior Awards: LINK Success Rate: Not Available LOD: Simple

54	Ongoing until funding is exhausted. Homelessness	Homekey+. To support the development of Permanent Supportive Housing (PSH) for Veterans, Tribal members, and other individuals with a mental health or substance use disorder challenge, and who are also at-risk of or experiencing homelessness. Eligible Projects: The following list of eligible Projects is not exhaustive. • Conversion of nonresidential structures to residential dwelling units. • Conversion of commercially zoned structures, such as office or retail spaces, to residential dwelling units. • Conversion of buildings with existing residential or interim uses that will be used to create PSH units. • Multifamily rental housing Projects. • Scattered site housing on multiple contiguous or non-contiguous sites is permitted as long as the resulting housing has common ownership, financing, and property management. • PSH units in a shared housing setting. Shared housing is a structure shared by two or more households where each household resides in a separate private bedroom that can be locked and has a lease, with all the rights and responsibilities of tenancy. Any of the Eligible Projects above, developed in excess of state-owned properties.	California Housing and Community Development Department (HCD)	State	Baseline: \$200,000 per door for each Assisted and Manager's Unit Additional funds: Up to \$100,000 per door For relocation costs, HCD will pay for one-half of the relocation cost per door in addition to the capital Award For Operating Awards and Match, refer to pages 13-14 \$35 million per project, exclusive of gap financing projects \$10 million for Single-Family Scattered Site project	Baseline contribution: Not required Additional funds: 1:1	Website Link to Prior Awards: Link Success Rate: Not Available LOD: Complex

65	Ongoing Economic Development	Public Works and Economic Adjustment Assistance (PWEAA) Program. - Public Works (PW): Through the primarily construction-oriented Public Works program, EDA provides catalytic investments to help distressed communities build, design, or engineer critical infrastructure and facilities that will help implement regional development strategies and advance bottom-up economic development goals to promote regional prosperity. - Economic Adjustment Assistance (EAA): Support a wide range of construction and non-construction activities in regions experiencing adverse economic changes that may occur suddenly or over time. Supported activities include construction and non-construction such as sectoral partnerships for workforce training, design and engineering, technical assistance, economic recovery strategies, and capitalization or re-capitalization of Revolving Loan Funds (RLF). EDA utilizes EAA investments to provide resources that help communities experiencing or anticipating economic dislocations to plan and implement specific solutions to leverage their existing regional economic advantages to support economic development and job creation. Strategy Grant: To develop, update, or refine a Comprehensive Economic Development Strategy	U.S. Economic Development Administration (EDA)	Federal	Public Works: EDA expects awards in the range of \$600,000 to \$5 million EAA: EDA expects awards in the range of \$150,000 to \$2.5 million	Generally, the maximum baseline EDA investment rate (percentage of the total project costs) will be 60 percent, but EDA may fund a higher percentage of total project costs in limited circumstances based on the relative needs of the region. Table 1 (page 9 of the NOFO) below sets forth the maximum allowable investment rate depending on the economic distress of the region.	Website Link to Prior Awards: Here Success Rate: The average size of a Public Works investment has been approximately \$1.4 million. The average size of an EAA investment has been approximately \$650,000. LOD: Complex
