San Bernardino Council of Governments
Grant Opportunities and Forecast
November 4, 2026
*(**NEW!** is noted for grants added in the past 14 days)*

Grant opportunities that may be of interest to SBCOG begin on the next page.

Table 1 includes a list of new grant opportunities since the last grant table.

Table 2 includes open grant opportunities. The "Success Rate" for each opportunity (if known) is indicated in **blue** in the "Notes" column. This is based on the number of applications awarded in relation to the number of applications submitted. The table also includes a link to past grant awards, if available. Additionally, we have included the anticipated level of difficulty to develop each grant proposal. A key is provided below for reference:

Key: Level of Difficulty (LOD)	
Simple	A simple level of difficulty indicates an application that may take 8 hours or less to develop and can likely be accomplished "in-house" with minimal effort/allocation of internal resources.
Medium	A medium level of difficulty indicates an application process that will take a more substantial allocation of internal resources to accomplish and might possibly require outside assistance (20-70 hours to develop application).
Complex	A complex level of difficulty indicates a VERY competitive opportunity, with a small success rate and intensive grant-development and positioning.

TABLE 1 New Grant Opportunities			
Deadline	**Name of Grant**	**Grant Number***	**Page Number**
11/06/26	El Niño Rapid Monitoring and Response for Coastal and Marine Ecosystems	5	8
11/13/26	Hydrogen-Based Zero-Emission On-Road Mobile Source Related Technology Development, Demonstration, Deployment, Workforce Development, and Air Quality Impact Projects	15	19
11/16/26	Evaluation of the Effectiveness of the BJA Byrne State Crisis Intervention Program (SCIP)	17	23
11/16/26	Proposition 4 Wildfire Prevention & Firefighter Safety Grant Program	18	24
01/06/27	Farm and Ranch Solid Waste Cleanup and Abatement Grant Program	29	41
01/26/27	Distributed Electricity Backup Assets (DEBA) Program – Distributed Energy Resources (DERs) for Grid Reliability	34	47

*By selecting the Grant Number in Table 1, you will be navigated directly to that grant opportunity in Table 2.

16	11/13/26	**Local Partnership Program (LPP) – Formulaic.** Provides formula-based transportation funding to eligible California local and regional transportation agencies that administer voter-approved taxes, tolls, or fees dedicated solely to transportation improvements. Each eligible taxing authority receives a predetermined funding share and nominates eligible projects against that allocation; nominations are screened for compliance rather than competitively scored. **Eligible Projects:** Formulaic funding may support any eligible phase of a capital project, including Project Approval and Environmental Document (PA&ED), Plans, Specifications and Estimate (PS&E), Right-of-Way, and Construction. **Eligible transportation projects include:** • State highway rehabilitation, capacity, safety, and operational improvements. • Transit facilities and guideways that expand service, increase ridership, improve safety, or improve access and convenience. • Zero-emission buses and eligible rail cars, locomotives, vans, and other transit rolling stock.	California Transportation Commission (CTC)	State	TBD The maximum available to an applicant is agency-specific.	Yes Projects require at least a one-to-one match of private, local, federal, or state funds with some exceptions. Taxing authorities whose voter-approved tax, toll, or fee generates less than $2,000,000 annually must provide match equal to at least 25% of the requested Formulaic funding. 46	Ongoing (Readiness Path and Implementation Path) Economic Development	**FY 2025 Disaster Supplemental Funding.** To help communities and regions devise and implement long-term economic recovery strategies through a variety of non-construction and construction projects in areas where a Presidential declaration of a major disaster was issued in 2023 and 2024. Three funding pathways: • **Readiness Path** – Capacity building and strategic planning projects that set the stage for future investment. • **Implementation Path** – Standalone construction and non-construction projects that help communities recover from natural disasters and advance recovery and growth. • **Industry Transformation Path** – Coalition-led, multi-project portfolios that transform regional economies through targeted industry development. **Location requirement:** Projects must be located in, primarily serve, or demonstrably benefit one or more communities in areas that received a major disaster designation occurring in calendar years 2023 and 2024. Check eligibility here: https://www.fema.gov/disaster/declarations	U.S. Economic Development Administration (EDA)	Federal	Readiness Path: $250,000 to $500,000 Implementation Path: Construction Projects: $2 million to $20 million Non-constructions Projects: $100,000 to $5 million Industry Transformation Path: $20 million to $50 million	20%, which may be waived for Tribal and severely stressed applicants	Website Link to Prior Awards: Not Available **Success Rate:** Not Available **LOD: Complex**

47	Continuous basis until the target yield of 170,000 acre-feet per year is fully subscribed Funding available as of 10/06/26 Water	**Local Resources Program**. For the development of water recycling, groundwater recovery, and seawater desalination supplies that offset an existing demand or prevent a new demand on Metropolitan's imported water deliveries either through direct replacement of imported water or increased regional groundwater production. Strong consideration will be given to projects that are well positioned for construction and timely production of stated project capacities in the near future. Projects with long ramp-up schedules may be addressed in phases. • Agency must apply for each phase separately when each phase is poised for timely construction and operation. Expansion of an existing project may be eligible on a case-by-case basis. For an expansion project to be eligible, the Agency must be committed to the expansion to produce water above the existing facility's annual production.	Metropolitan Water District of Southern California	Regional	Option 1: Sliding scale incentives up to $340/AF over 25 years Option 2: Sliding scale incentives up to $475/AF over 15 years Option 3: Fixed incentive up to $305/AF over 25 years See pages 8 – 9 for more details on the Incentive Payment Structure of the Guidelines: Link	Not stated as required	Website Link to Prior Awards: Not Available **Success Rate:** Not Available **LOD: Complex**

49	Ongoing Water	**Emerging Contaminants (EC) Funding (forgivable loans).** To address per- and polyfluoroalkyl substances (PFAS) and other emerging contaminants in drinking water. "Emerging contaminants" include contaminants listed on any of EPA's Contaminant Candidate Lists (CCL). Eligible projects and activities may include, but are not limited to: • Construction of a new treatment facility or upgrade to an existing treatment facility that addresses EC/PFAS. • Development of a new source (i.e., new/replacement well or intake for a public water system) that addresses an EC/PFAS issue. • Consolidation with another water system that does not have EC/PFAS present or has removal capability. • Infrastructure related to pilot testing for treatment alternatives. • Planning and design for small DACs • Creation of a new community water system to address unsafe drinking water provided by individual (i.e., privately-owned) wells or surface water sources. • Connection of private wells to an existing public water system. Eligible construction projects may include costs for planning and design.	State Water Resources Control Board (SWRCB)	Federal and State	Water systems that serve Disadvantaged Communities (DACs) or systems serving a population under 25,000: No maximum and no expectation of repayment (forgivable loans) Water systems that serve non-DACs with a population over 25,000: $25 million with no expectation of repayment (forgivable loans)	Water systems that serve Disadvantaged Communities (DACs) or systems serving a population under 25,000: No match Water systems that serve non-DACs with a population over 25,000: 50%	SWRCB: Website EPA: Website Link to Prior Awards: Not Available **Success Rate:** Not Available **LOD: Complex**

	Water
		Clean Water State Revolving Fund (CWSRF) LOAN. For:
		• Construction of publicly-owned treatment facilities:
		  ○ Wastewater treatment
		  ○ Local sewers
		  ○ Sewer interceptors
		  ○ Water reclamation and distribution
		  ○ Stormwater treatment
		  ○ Combined sewers
		  ○ Landfill leachate treatment
		• Implementation of nonpoint source (NPS) projects to address pollution associated with:
		  ○ Agriculture
		  ○ Forestry
		  ○ Urban Areas
		  ○ Marinas
		  ○ Hydromodification
		  ○ Wetlands
		• Development and implementation of estuary comprehensive conservation and management plans for:
		  ○ San Francisco Bay
		  ○ Morro Bay
		  ○ Santa Monica Bay
			California State Water Resources Control Board	Federal via State	**Financing Terms:**
					
					Interest Rate: ½ most recent General Obligation (GO) Bond Rate at time of funding approval
					
					Financing Term: Up to 30 years or the useful life of the project
					
					Financing Amount: No maximum funding limit. No maximum disbursement limit.
					
					Repayment: Begins 1 year after completion of construction

	Wildlife and Habitat Restoration
		Restoration Grants. For planning, implementation, acquisition, monitoring, capacity building, and scientific studies in the following areas:
		• Drought Resiliency - Protecting Salmon - To support restoration and protection projects that enhance salmon resiliency to drought and climate change.
		• Addressing Climate Impacts - To support projects addressing urgently degrading water and habitat conditions due to climate change impacts.
		• Nature Based Solutions
		  ○ Wetlands and Mountain Meadows Restoration
		  ○ Wildlife Corridors - For connectivity planning and implementation projects
		• Proposition 1 - To fund grants for multi-benefit ecosystem and watershed protection and restoration projects.
		• Proposition 68 - To restore and protect rivers and streams in support of:
		  ○ River and Stream Restoration;
		  ○ Southern Steelhead Habitat Restoration; and
		  ○ Fish and Wildlife Habitat Restoration.
			California Department of Fish and Wildlife	State	None	Cost share is not required; however, proposals with higher proportions of secured cost share may receive higher scores during the evaluation process.	Website

63	Ongoing Economic Development	**Public Works and Economic Adjustment Assistance (PWEAA) Program.** • Public Works (PW): Through the primarily construction-oriented Public Works program, EDA provides catalytic investments to help distressed communities build, design, or engineer critical infrastructure and facilities that will help implement regional development strategies and advance bottom-up economic development goals to promote regional prosperity. • Economic Adjustment Assistance (EAA): Support a wide range of construction and non-construction activities in regions experiencing adverse economic changes that may occur suddenly or over time. Supported activities include construction and non-construction such as sectoral partnerships for workforce training, design and engineering, technical assistance, economic recovery strategies, and capitalization or re-capitalization of Revolving Loan Funds (RLF). EDA utilizes EAA investments to provide resources that help communities experiencing or anticipating economic dislocations to plan and implement specific solutions to leverage their existing regional economic advantages to support economic development and job creation. Strategy Grant: To develop, update, or refine a Comprehensive Economic Development Strategy	U.S. Economic Development Administration	Federal	Public Works: EDA expects awards in the range of $600,000 to $5 million EAA: EDA expects awards in the range of $150,000 to $2.5 million	Generally, the maximum baseline EDA investment rate (percentage of the total project costs) will be 60 percent, but EDA may fund a higher percentage of total project costs in limited circumstances based on the relative needs of the region. Table 1 (page 9 of the NOFO) below sets forth the maximum allowable investment rate depending on the economic distress of the region.	Website Link to Prior Awards: Here **Success Rate:** The average size of a Public Works investment has been approximately $1.4 million. The average size of an EAA investment has been approximately $650,000. **LOD: Complex**
